Telecommuting Agreement

Letter of Agreement

Kaiser Foundation Health Plan of Washington, Inc, And
SEIU Healthcare 1199NW
RN/ ARNP Collective Bargaining Unit Agreement Article 8.17 Float Pool Premium.
This Agreement is made and entered into by and between Group Health, hereinafter referred to as the "Employer," and SEIU Healthcare 1199NW, hereinafter referred to as the "Union." The purpose of this Agreement is to set forth the understanding reached between the parties hereto with respect to wages and salaries, hours of work and conditions of employment with the objective of improving the practice of nursing through the promotion of equitable employment standards.

ARTICLE 1 - RECOGNITION

1.1 Recognition.

Pursuant to the National Labor Relations Board Certification dated May 26, 1983 (Case No. 19-RC-10700) and as subsequently agreed to by the parties in January 2005, the Employer recognizes the Union as the sole and exclusive representative for all Registered Nurses employed by the employer as Registered Nurses at all of the Employer's locations, including, but not limited to the following: staff nurse, visiting nurse, liaison nurse, nurse practitioner, consulting nurse, and registered nurse/oncology, employed by the Employer at the Employer's medical centers in Western Washington (WWA) and Eastern Washington (EW), excluding nurses in supervisory and administrative/management positions and all other employees.

1.2 New Classifications.

New registered nurse job classifications established during the term of this Agreement shall be covered by this Agreement unless they are administrative/management or supervisory positions.

1.3 Supervisor Defined.

The term "supervisor" means any individual having authority, in the interest of the Employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward or discipline other employees, or responsibility to direct them, or to adjust their grievances, or effectively to recommend such action, if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.
ARTICLE 2 - UNION MEMBERSHIP- AUTHORIZED DEDUCTIONS

2.1 Membership.

All employees in the bargaining unit shall become and remain members of the Union. Newly hired full-time, part-time and temporary employees shall, as a condition of continued employment, become members of the Union within thirty (30) calendar days after the date of hire. The Employer shall make newly hired employees aware of this requirement at the time of hire. Employees who fail to comply with this requirement shall be discharged by the Employer within thirty (30) calendar days after the receipt of written notice to the Employer from the Union, unless the employee fulfills the membership obligation set forth in this Agreement. Newly hired employees shall not be required to pay the Union's initiation fee until after ninety (90) days of employment.

2.2 Religious Objection.

Any employee who is a member of and adheres to established and traditional tenets or teachings of a bona fide religion, body, or sect which has historically held conscientious objections to joining or financially supporting a labor organization shall not be required to join or financially support the Union but, in the alternative, shall be required to pay a monthly amount equal to the monthly dues of the Union, to a non-religious charitable fund exempt from taxation under Section 501(c)(3) of the Internal Revenue Code. These religious objections and decisions as to which fund will be used must be documented and declared in writing.

2.3 Dues Deduction.

During the term of this Agreement, the Employer shall deduct an amount equal to the Union's uniform monthly dues or agency fees from the pay of each member of the Union who voluntarily executes a wage assignment authorization form. Upon request, the Employer shall deduct an initiation fee and any additional dues amounts as specified by the Union and authorized by the employee. When filed with the Employer, the authorization form will be honored in accordance with its terms. Deductions will be promptly transmitted to the Union by electronic transfer.

Upon electronic transfer of funds to the Union, the Employer's responsibility shall cease with respect to such deductions. The Union and each employee authorizing the assignment of wages for the payment of Union dues hereby undertakes to indemnify and hold the Employer harmless from all claims, demands, suits and other forms of liability that may arise against the Employer for or on account of any deduction made from the wages of such employee.
2.4 Employee Rosters.

Upon the signing of this Agreement and monthly thereafter, the Employer shall supply to the Union a list of all employees covered by this Agreement. The list shall include the name, classification, employee ID number, date of hire, hourly rate of pay, and regular hours worked and gross earnings for each employee. Each month the Employer shall also send a list of new hires and their addresses and a list of all employees who have terminated during the month. The Employer will semi-annually supply a list of current addresses of all employees covered by this Agreement.

2.5 Voluntary Political Action Fund Deduction.

The Employer shall deduct the sum specified from the pay of each member of the Union who voluntarily executes a political action contribution authorization form. The amount deducted and a roster of nurses using this voluntary deduction will be transmitted to the PAC Fund. The Union and each nurse authorizing the assignment of wages for the payment of voluntary political action contributions hereby undertakes to indemnify and hold the Employer harmless from all claims, demands, suits and other liability that may arise against the Employer for or on account of any deduction made from the wages of such nurse.

In consideration for the Employer's agreement regarding voluntary PAC Fund deductions, the Union agrees that neither employees nor its representatives will solicit for political action fund deductions in patient care areas. The parties recognize that the Union is obligated under the Federal Election Campaign Act ("FECA") to reimburse Group Health for its reasonable cost of administering the PAC check-off in the parties' collective bargaining agreement. The Employer and the Union agree that one quarter of one percent (0.25%) of all amounts checked off is a reasonable amount to cover Group Health costs of administering this check-off. Accordingly, the parties agree that Group Health will retain one-quarter of one percent (0.25%) of all amounts deducted pursuant to the PAC check off provision in the parties' collective bargaining agreement to reimburse Group Health for its reasonable costs of administering the check-off.

ARTICLE 3 - UNION REPRESENTATIVES

3.1 Union Access.

The Union's authorized staff representatives may have access to the Employer's premises where employees covered by this Agreement are working, excluding direct patient care areas, for the purpose of investigating grievances and contract compliance at reasonable times, after notifying the Employer. Access for other purposes shall not be unreasonably denied by the Employer. The Union's representatives shall advise the Employer as to which department or
area the staff representative wishes to visit, and will confine such visits to the department or areas agreed upon. Such visits shall not interfere with or disturb employees in the performance of their work during working hours and shall not interfere with patient care.

3.1.1 New Employee Orientation.
Upon completion of the Employer's monthly orientation program, Group Health will make a conference room available for up to one-half (½) hour for any Group Health union to meet with new employees in their bargaining unit. Employee attendance will be voluntary. Any time spent in such voluntary meeting will be on unpaid time for both the new employee and the employee union representative.

3.2 Facility Use.
The Union shall be permitted to use designated premises of the Employer for meetings of the local unit, with or without Union staff present, provided sufficient advance request for meeting facilities is made to Labor Relations and space is available.

3.3 Union Delegates.
A list of Union Delegates from the bargaining unit, elected in accordance with District and National Union by-laws, shall be provided to the Employer. Such Delegates shall be authorized to serve as the representative in Steps 1, 2 and 3 of the grievance procedure and Article 6.3 as provided in this Agreement. The parties acknowledge the general proposition that Union business performed by the Union Delegates, including the investigation of grievances, will be conducted during non-working hours (e.g., coffee breaks, lunch periods, and before and after shift). When it is not practical or reasonable to transact such business during non-working periods, the Union Delegates will be allowed a reasonable amount of time during working hours to perform such functions, except that such activity shall not take precedence over the requirement of patient care.

3.4 Bulletin Boards.
Bulletin boards in prominent locations in each work area shall be designated for the Union's use. Posting of union related matters will be limited to the designated bulletin boards.

3.5 Contract Distribution.
The Employer shall make available a copy of this Agreement to all newly hired employees. Union membership applications and payroll deduction cards will be distributed to each new employee during orientation. The Union will provide copies of the Agreement, membership applications and payroll deduction cards to the Employer.
3.6 Negotiations Release Time.

Subject to patient care requirements, the Employer will make a good faith effort to assist in providing unpaid release time for employees participating in contract negotiations. Employees will work with their managers to arrange this time off. Unpaid release time to participate in this activity will accrue benefits.

3.7 Employee Participation in Union Activities.

Subject to appropriate advance notice and scheduling/staffing requirements, Union officers, delegates and members of contract committees may use eight (8) hours per calendar year of their continuing education leave/time to attend union-sponsored training in leadership representation and dispute resolution. The Union must provide written notification to the Employer's Human Resources Division yearly of the names of union officers, delegates and members of the contract committees in order for those individuals to be eligible to access their continuing education leave/time under this provision.

An unpaid leave of absence to attend union Executive Board meetings, officer meetings, delegate meetings and training sessions, district delegate assemblies, or union conventions may be approved subject to patient care needs/consumer service requirements. Unpaid release time to participate in these activities will accrue benefits.

Subject to patient care and staffing needs, an employee may be granted an unpaid leave of absence for up to twelve (12) weeks to assume a position with the Union and the employee shall be entitled to return to his/her former position. On a leave of absence exceeding twelve (12) weeks, s/he would be entitled to the first available position for which the employee is qualified in order of seniority relative to other employees with return to work rights. The leave of absence may not exceed twelve (12) months.

ARTICLE 4 - RECOGNITION OF RIGHTS AND FUNCTIONS OF MANAGEMENT

4.1

The Union recognizes that the Employer has the obligation of serving the public with the highest quality of health care, efficiently and economically, and/or meeting medical emergencies. Except as modified elsewhere in this Agreement, the Union recognizes the right of the Employer to operate and manage Group Health including but not limited to the right to require standards of performance and to maintain order and efficiency; to direct employees and to determine job assignments and working schedules; to determine the materials and equipment to be used; to
implement improved operational methods and procedures; to determine staffing requirements; to determine the kind and location of facilities; to determine whether the whole or any part of the operation shall continue to operate; to select and hire employees; to promote and transfer employees; to discipline, demote or discharge employees for just cause; to layoff employees for lack of work; to recall employees; to require reasonable overtime work of employees; and to promulgate rules, regulations and personnel policies, provided that such rights shall not be exercised so as to violate any of the specific provisions of this Agreement.

ARTICLE 5 - DEFINITIONS

5.1 Probationary Employee.

The following employees will be subject to a three (3) calendar month probationary period: (1) employees hired to work on a full-time basis, and (2) employees hired to work on a part-time basis at a 0.5 FTE or more.

Employees in the following categories shall be subject to a six (6) month probationary period: (1) employees hired to work on a part-time basis at less than a 0.5 FTE; (2) nurse practitioners; and (3) employees hired as resident nurses.

After completing the applicable probationary period, the employee shall be considered regular unless specifically advised by the Employer of an extended probationary period. In no event shall the probationary period exceed six (6) months. Prior to extending the probationary period, the employee shall receive a written evaluation. During the probationary period, an employee may be terminated without notice and without recourse to the grievance procedure. Probationary employees shall not be required to give two (2) weeks' notice of intention to terminate.

5.2 Regular Full-Time Employee.

For benefit purposes, a regular full-time employee is one who in the performance of assigned duties normally works a regular continuing schedule of forty (40) hours per week or, in Urgent Care and other 24/7 settings as allowed under applicable overtime law, eighty (80) hours per fourteen (14) day period. Irregular seventy (70) hours per ten (10) day period, or thirty-six (36) hours per three (3) day period schedules also constitute full time.
5.3 Regular Part-time Employee.

A regular part time employee who is regularly scheduled on a regular basis to work less than forty (40) hours per week and who has successfully completed the required probationary period. All regular part-time employees shall receive salary increments. Unless otherwise provided for herein, a part-time employee shall be compensated in the same manner as a full time employee except that wages and benefits shall be prorated. Proration of Paid Time Off benefits shall be based on all straight-time hours paid in a regular job assignment.

In lieu of all fringe benefits (see Section 5.11), a part-time nurse may elect a fifteen percent (15%) wage premium until March 31, 2009. Due to IRS regulations, after that date this option will no longer be available. Employees who are receiving the fifteen percent (15%) wage premium as of March 31, 2009 may continue to receive the premium. However, when an employee who is receiving the premium elects to opt for benefits, the employee may not thereafter request the fifteen percent (15%) wage premium.

Employees who are receiving the wage premium may elect to opt for benefits between the dates of July 1 through July 10 of every year or at the first of the month following an increase in the employee's FTE to 0.5 or greater from an FTE of 0.49 or less. Additionally, employees receiving the wage premium who thereafter opt for benefits will be able to receive medical coverage as of the first day of the month after opting for benefits. The two (2) month waiting period will not apply.

5.4 Temporary Employees.

An employee hired to work during any period when additional work of any nature requires a temporarily augmented work force or in the event of an emergency or authorized leave of absence. Temporary employees hired during the term of this Agreement shall be compensated at the salary step consistent with the hire-in rates set forth in Article 8.2. Temporary employees shall receive a fifteen percent (15%) premium in lieu of all fringe benefits. Regular employees reclassified to temporary status shall retain their prior increment level for pay purposes plus fifteen percent (15%) premium in lieu of all fringe benefits. The fifteen percent (15%) premium shall be determined by computing fifteen percent (15%) of the employee's rate of pay. Temporary employees will not be regularly utilized to fill regular positions. Temporary employees may be terminated without notice and without recourse to the grievance procedure for terminations. Length of service shall be a primary consideration when temporary employees apply for regular positions, providing skill, competence and ability are substantially equal to that of other applicants.
5.5 Resident Nurse.

A registered nurse whose clinical experience after graduation is less than six (6) months or a registered nurse who is returning to practice, with no current clinical training or experience in the opinion of Nursing Administration. A resident nurse shall be assigned under the close and direct supervision of designated preceptor(s) and shall have limited responsibilities as defined by the supervisor. Residency shall not exceed six (6) continuous months unless extended by mutual agreement between the Employer and individual nurse involved. A resident nurse who is required to function continuously without close and direct supervision and who is assigned the same level of responsibilities as a staff nurse shall be promoted to the position of staff nurse.

5.6 Staff Nurse.

A registered nurse who is responsible for the direct and indirect nursing care of the patient in either inpatient or outpatient setting. An experienced registered nurse returning to practice who has recently satisfactorily completed a nursing refresher course approved by Nursing Administration shall be classified as a staff nurse for starting salary purposes.

5.7 Charge Nurse.

A registered nurse who is assigned by Nursing Administration specific responsibilities for a designated time period in a defined work area within an acute or outpatient facility. The charge nurse functions under the direction of the nurse manager. These responsibilities may include but are not limited to facilitating information flow within the work unit and among departments; assisting in the orientation of new employees, serving as a resource for problem solving, policy, procedure, standards of care and quality assurance; assigning break and lunch coverage; assigning patient care based upon acuity; coordinating patient placement; and projecting staffing needs for the current/next shift. The charge nurse designation is appropriate when the nurse is assigned a substantial portion of these recognized responsibilities for groups of patients.

5.8 Nurse Practitioner.

A registered nurse with additional education or training in health care delivery possessing the skills and knowledge for diagnostic evaluation and treatment of patients. The practitioner functions in a collaborative relationship with other health care professionals in the clinical management of patients.

Nurse Practitioners working 0.5 FTE or greater will be compensated as exempt (salaried) employees under the Fair Labor Standards Act and will not be eligible for overtime compensation.
This entire CSA shall apply to exempt Nurse Practitioners unless otherwise noted, except the following provisions shall not apply: Article 7.5 (Rest Between Shifts); Article 7.9 (Doubleback Pay); Article 8.5 (Shift Differential); Article 8.7 (Callback Pay); Article 8.8 (Work in Advance of Shift), Article 8.9 (Work on Day Off), Article 8.11 (Report Pay), and Article 8.14 (Weekend Premium Pay); Article 8.17 (Float Pool Premium)

5.9 Visiting Nurse.

A registered nurse with a baccalaureate degree or equivalent clinical experience, which has qualified the nurse to work as a community health/visiting nurse.

5.10 Preceptor.

A preceptor is an experienced nurse proficient in clinical teaching and communication skills who has completed the appropriate in-service program and is assigned by the Employer the responsibility for planning, organizing, and evaluating the orientation of newly hired registered nurses, newly transferred registered nurses and resident nurses. Inherent in the preceptor role is the responsibility for specific, criteria based and goal-directed education and training for a specific orientation period. Newly transferred experienced nurses may not be assigned a preceptor based on their knowledge, skills, competence and ability or previous orientation to the department or facility as determined by nursing management. A preceptor may be assigned to a student when it is determined to be appropriate by the Employer. It is understood that registered nurses in the ordinary course of their responsibilities will be expected to participate in the general orientation process. This would include providing informational assistance, support and guidance to new nurses, floats, registry and ancillary personnel.

5.11 Fringe Benefits.

For purposes of this Agreement, "fringe benefits" are defined as paid time off, holidays, insurance coverage (medical, dental, life, etc.) education, professional, and bereavement leave.

5.12 Nursing Technician.

A nursing student employed in a hospital licensed under Chapter 70.41 RCW or a nursing home licensed under Chapter 18.51 of the RCW, who:

A. Is currently enrolled in good standing in a nursing program approved by the commission and has not graduated; or

B. Is a graduate of a nursing program approved by the commission who graduated.

The purpose of the role of Nursing Technician is to provide opportunity for students enrolled in an AND or BSN program to gain experience within the limits of their education, but not limited to
the scope of functions of nursing assistant-certified. The registered nurse is responsible at all
times for supervising the Nursing Technician. Supervision is defined in WAC 246 840 880.

5.13 WWA Seniority Defined.
Seniority shall mean an employee's continuous length of service as a registered nurse with the
Employer from most recent date of regular hire. Seniority benefits shall not apply to an
employee until completion of the required probationary period. Upon satisfactory completion
of this probationary period, the employee shall be credited with seniority from most recent date
of regular hire.

5.14 Liaison Nurse Seniority Defined.
Seniority shall be defined as time worked in the bargaining unit plus time worked in the job
classification. For purposes of unit layoff, unit job posting and vacation scheduling, seniority
shall be defined as the date of hire into the job classification.

5.15 EW Seniority Defined.
Seniority shall mean an employee's continuous length of service with the Employer from most
recent date of regular hire. Seniority benefits shall not apply to an employee until completion of
the required probationary period. Upon satisfactory completion of this probationary period, the
employee shall be credited with seniority from most recent date of regular hire.

5.16 RN Care Management Spokane and Northwest District.
Seniority shall be determined by the employee's most recent date of hire as a RN. Seniority
benefits shall not apply to an employee until completion of the required probationary period.
Upon satisfactory completion of this probationary period, the employee shall be credited with
seniority from the most recent date of regular hire.

5.17 Seniority Tie-Breaker.
In the event two or more seniority dates are tied, the relative order of priority will be determined
by the date an employee's application or transfer form was received for the position on which
the employees' seniority is based. The employee with the earliest date of receipt on the
application/transfer form will have first priority within the group. In the event one or more
employees do not have a date stamped application/transfer form, the last four digits of the
employees' social security number will be added up with the highest number receiving first
priority and so on.
5.18 Termination.

Seniority shall terminate upon cessation of the Employer-employee relationship; for example, discharge, resignation, retirement, refusal to accept recall to a regular comparable job opening offered by the Employer, after twenty-four (24) consecutive months of layoff, or failure to comply with specified recall procedures.

5.19 Change to Temporary Status.

Regular employees changing to temporary status and returning to regular status within twelve (12) months shall not lose previously accrued seniority or their prior Paid Time Off accrual rate. Time spent during temporary status shall not count toward the accrual of benefits or seniority.

Previously accrued Paid Time Off shall be paid upon transfer to temporary status. Employees changing to temporary employment status may not use previously accrued EIB hours during such temporary status. Temporary employees returning to regular status without a break in service within twelve (12) months shall have previously accrued EIB hours reinstated.

5.20 Work Unit.

A work unit is defined as primary care services in a medical center; specialty services in a medical center; a separately established urgent care department in a medical center with its own identified staff; a separately established ambulatory surgery center department in a medical center with its own identified staff; Home Health & Hospice services in a branch office of Continuing Care; Nursing Home Services; Bartell Drugs Care Clinics.

ARTICLE 6 - EMPLOYMENT PRACTICES AND PERSONNEL POLICIES

6.1 Non-discrimination.

The Employer and the Union agree that there shall be no discrimination against any employee because of race, color, creed, national origin, religion, sex, age, marital status, sexual orientation or the presence of physical or mental handicaps not pertinent to performance. Nor shall either party discriminate against any employee due to any reason covered by applicable federal, state or local law. No employee covered by this Agreement shall be discriminated against because of membership in the Union or activities on behalf of the Union.
6.2 Job Postings.

When a vacancy occurs, notice of such vacancy shall be posted online at ghc.org for a minimum of seventy-two (72) hours, excluding holidays and weekends. Qualified regular employees on the unit will be considered for hire prior to all other applicants. Seniority will be the determining factor when competence, skill and ability are equal.

6.2.1
Formal verbal and written disciplinary notices that are older than twenty four (24) months shall not be considered when evaluating and selecting applicants for lateral transfers and/or promotions.

6.3 Discipline/Discharge for Just Cause.

Discipline/Discharge shall be for just cause. Employees who have been discharged by the Employer shall be given a written statement of the cause of discharge within three (3) working days thereafter. Upon request by the employee, a copy of the notice will be sent to the Union. Every reasonable attempt will be made to counsel employees prior to discharge for cause.

While the provisions of this Article do not apply to temporary employees, in recognition of Group Health’s desire to deal fairly with all employees, any temporary employee who is not performing satisfactorily will be notified by the immediate supervisor and may request a meeting with the immediate supervisor for purposes of discussing the employee's performance or other concerns affecting continued employment. A union delegate may be present if requested by the employee.

The Employer shall use a uniform system of written warning notices for poor work performance, formal reprimands and suspensions. Copies of these notices shall be given to the employee at the time formal disciplinary action is taken or shortly thereafter. The employee shall be requested to sign the written warning notice. The employee's signature thereon shall not be construed as admission of guilt or concurrence with the reprimand, but rather shall be requested as an indication that they have seen and comprehend the gravity of the disciplinary action taken. Upon request by the employee, a copy of the written warning will be sent to the Union. The Employee shall have the right to request the attendance of a Union Representative during any investigatory meeting, which may lead to discipline.

6.4 Notice of Termination.

Regular employees who have completed the required probationary period shall receive fourteen (14) days' notice of termination or pay in lieu thereof (prorated for part-time employees) including any accrued Paid Time Off pay, except in cases of discharge for just cause.
6.5 Notice of Resignation.

Regular employees shall be required to give at least fourteen (14) days' written notice of resignation except that at least three (3) weeks' notice in writing shall be required of employees working alternative periods such as every other week or every other weekend. Failure to give such notice shall result in loss of accrued fringe benefits. The Employer will give consideration to situations that would make such notice by the employee impossible.

6.6 Personnel Records.

Written personnel action forms in duplicate shall be used to specify conditions of hiring, termination changes in employee status, pay or shift, or leave of absence. Reasons for termination, change in status, pay or shift shall be noted on the form. The employee shall be given one copy of this form. Employees may review their personnel file upon request to the Human Resources Service Center. Employees may provide a written response to any material contained in their personnel file.

6.7 Performance Appraisals.

All nurses will be formally evaluated in writing prior to completion of the residency or probationary period and annually thereafter. Interim evaluations may be conducted as may be required. The evaluation is an educational tool for assessing the professional skills of the nurse and for improving and recognizing the nurse's performance. The nurse's participation, including self-evaluation as well as co-worker input, is an integral part of the evaluation process. The nurse will be given a copy of the evaluation. Nurses will be required to sign the evaluation acknowledging receipt thereof. Nurses will be given the opportunity to provide a written response to the evaluation, which will be retained with the evaluation in the nurse's personnel file.

6.8 Pay Days.

The Employer will pay employees every other Friday. Payroll deposit information will be available on Thursday for employees. Employees are required to sign up for electronic deposit of pay.

6.8.1 Payroll Error.

Current guidelines provide for the payroll department to process individualized manual paychecks for requests of more than eight (8) hours of pay, if the request is received in payroll by the Tuesday after pay day. If the amount of the error represents less than eight (8) hours of pay and/or the payroll department does not receive the request until after Tuesday following payday, the adjustment will be processed on the next pay cycle.
6.9 In-service and Orientation.

In-service education and orientation programs shall be instituted and maintained, with programs posted in advance. In-service education programs will be scheduled in an effort to accommodate varying work schedules. The procedures and content for such programs shall be appropriate subjects for discussion by the Nursing Practice Committees. Such programs shall be consistent with the standards established by the Joint Commission on Accreditation of Hospitals. Participation in in-service education shall be one criterion used in performance evaluation.

6.10 Personnel Policies.

All Employees of this bargaining unit, in addition to being governed by this Agreement, shall also be subject to the personnel policies published by the Employer having general applicability to all employees of the Employer and any subsequent personnel policies, rules and regulations that may be promulgated in the future, so long as they do not conflict with the letter or intent of this Agreement. In case of any conflict, this Agreement shall be the controlling policy for the employees covered by this Agreement.

6.11 Floating.

The Employer retains the right to change the employee's daily work assignment to meet patient care needs. Employees will not be required to perform tasks or procedures for which they have not been currently trained. Except in cases of emergency, employees will only be floated to those areas where they have received adequate orientation. Nursing managers in consultation with designated unit preceptors and staff nurses regularly assigned to the unit will develop unit specific orientation tools to be used by staff nurses floated to the unit. Except in cases of emergency, floating will be restricted to designated clinical groupings. Efforts shall be made to return a floated nurse to the nurse's regularly assigned unit rather than replace the nurse with another float.

6.12 Transfer.

Nurses may transfer within Group Health without loss of accrued benefits provided for in this Agreement. When skill, competency and ability are considered substantially equal in the judgment of the Employer, seniority shall be a controlling consideration in the transfer and promotion to other positions within the bargaining unit.

A "transfer" shall be defined as an employee-initiated change in employment status, location or shift. Upon being selected for a new position, an employee shall be ineligible for other job openings for a period of six (6) months unless otherwise agreed to by the Employer. This six (6)
month ineligibility shall not apply when the employee remains in the same job classification in the same accounting unit but makes changes to their FTE or schedule.

If the Employer is unable to transfer an employee to a vacant position due to patient care considerations, the position may be filled on a temporary basis and the employee will be notified in writing as to when the transfer will be expected to occur.

6.13 Subcontracting.

At the time of ratification of this Agreement, it is understood that Group Health has no plan to subcontract any bargaining unit work.

At least one-hundred and eighty (180) days prior to reaching a final determination to subcontract, sell or transfer services that would result in the loss of regular hours of work currently performed by bargaining unit employees, Group Health agrees to:

1) Provide the Union with documentation of the need, financial impact, affected work and employees and other factors;
2) Using Interest Based Bargaining principles and methods, meet with the Union to discuss and consider the feasibility of creating and/or implementing alternatives to the subcontracting that would satisfy consumer needs, avoid negative impact on bargaining unit employees and meet Group Health's primary business objectives.

This agreement to meet for purposes of further review and consideration of alternatives is not intended to create a duty to bargain that would otherwise not be required nor to waive a duty to bargain that would otherwise exist. Such discussions about the decision will be concluded within ninety (90) calendar days from the date Group Health provided the Union with the initial one-hundred and eighty (180) day notice.

In the event Group Health decides to contract out a service which will result in the elimination of an entire work unit, department or facility, Group Health will make a good faith effort to obtain preferential hiring opportunities with the contracting entity for affected employees as an alternative to exercising layoff related rights under the collective bargaining agreement. Preferential hiring commitments include first consideration over other qualified candidates for positions created as a result of the contract and favorable treatment of such employment conditions as credit for seniority/tenure, sick leave and pension.

6.14 - Dual Licensure.

When Group Health requires more than one state RN license, the second and any subsequent license fees for such dual licensure will be paid by the Employer.
ARTICLE 7 - HOURS OF WORK AND OVERTIME

7.2 Work Week.

The normal work week shall consist of forty (40) hours of work within a seven (7) day period (beginning Sunday and ending Saturday) or eighty (80) hours of work within a fourteen (14) day period in Urgent Care and other 24/7 settings as allowed under applicable overtime law.

7.3 Alternative Work Schedules.

An alternative work schedule is defined as a work schedule that requires a change, modification or waiver of certain provisions of this Agreement. Alternative work schedules not specified in this Agreement or Addendums hereto may be established by the Employer with the consent of the Union. Where work schedules other than a five (5) eight (8) hour day schedule are utilized, the Employer shall have the right to revert back to the five (5) eight (8) hour day schedule or the work schedule which was in effect immediately prior to the alternative work schedule, after sixty (60) days advance notice to the employees. Prior to implementation of a change in work schedule involving a unit or facility, the Employer will meet with the Union to discuss the contemplated change of schedule.

7.4 Overtime Non-Exempt Employees.

Overtime shall be compensated for at the rate of one and one-half (1½) times the regular rate of pay for all time worked beyond the normal or scheduled work shift (8, 9, 10); provided however, all additional overtime after twelve (12) consecutive hours shall be paid at double (2X) the employee's regular rate of pay (except as noted in the 12/40 alternative staffing pattern or the Twelve hour innovative weekend schedule addendums). The regular rate of pay shall include shift differential and any special service premium. Paid Time Off, and all other categories of paid absences will be excluded as time worked from the determination of the obligation to pay overtime and the calculation of the overtime. The calculation of double-time will be on the same
basis as overtime at time and a half, i.e., the obligation to pay double time shall be based on actual hours worked. Overtime worked consecutive to the regularly scheduled shift shall be considered part of the regularly scheduled shift. Upon the mutual consent of the employee and immediate supervisor, employees working a seven (7) day work period may schedule compensatory time off in lieu of receiving overtime pay providing the time off is scheduled during the same work week in which the overtime was worked. Compensatory time off will be scheduled off at the rate of time and one-half (1½) unless the schedule change is for the employee's convenience in which case compensatory time off will be at the straight time rate. Compensatory time off may be taken on a low census day. All overtime must be arranged by supervision.

Each department and/or unit shall establish procedures for the approval of overtime. Overtime shall be considered in effect when eight (8) minutes or more are worked after the end of a scheduled shift of at least eight (8) hours or more in duration. Thereafter, overtime will be paid to the nearest quarter hour. No overtime shall be paid when less than eight (8) minutes have been worked after the end of the shift. There shall be no pyramiding or duplication of overtime pay and/or other premium compensation paid at the rate of one and one-half (1½) of the regular rate of pay which would result in compensation exceeding one and one-half (1½) for the same hours worked.

7.5 Rest Between Shifts.

In scheduling work assignments, the Employer will make a good faith effort to provide each employee with at least twelve (12) hours off duty between shifts. In the event an employee is required to work with less than twelve (12) hours off duty between shifts, all time worked within this twelve (12) hour period shall be paid at one and one-half (1½) times the regular rate of pay.

Any employee who rotates shifts by mutual agreement shall receive four dollars ($4.00) per hour for each hour worked in addition to the employee's regular rate of pay. The Employer shall have the right to revert back to non rotating shifts after thirty (30) days' advance notice to the employee. In such event, the affected employee shall have the option of regular assignment to one of the shifts to which the employee previously rotated.

7.9 Doubleback Pay.

When an employee is required to work two (2) complete shifts within a twenty-four (24) hour period, the first of which is not a normally scheduled shift, all time worked on the second shift shall be paid at the rate of time and one-half (1½) the regular rate of pay. The twenty-four (24) hour period begins with the start of the first shift worked.

7.10 Meal and Rest Periods Non-Exempt Employees.

All employees shall receive an unpaid meal period of at least one-half (½) hour during each normal workday. Meal periods shall occur as near the middle of the shift as is practical. 10.5 Use of PTO Accrued Hours.

PTO hours may be taken in hourly, daily or weekly increments, subject to supervisory approval of requests for scheduled absences. Each department's established PTO rules as well as the provisions of Article 10 of this Agreement shall apply regarding advance notice, supervisory approval, and scheduling requirements.

10.6 Vacation Scheduling.

The vacation year shall be based upon an employee's anniversary date. Employees may schedule and take PTO as vacation to the extent it has been earned. Vacations shall be scheduled by the Employer in such a way as will least interfere with the functions of the department and the continuity of patient care. The Employer will make a good faith effort to secure adequate staffing to provide improved vacation scheduling opportunities.

Vacations shall be scheduled in the Nursing Department by work unit. A vacation scheduling chart will be posted in each unit from January 1 through February 14 that covers the vacation period of May 15 through May 14 of the following year. Employees who fail to register their vacation selection during the period of posting will forfeit their seniority rights concerning vacation schedules. Where vacation conflicts with the rotation of holidays, and/or the day before and the day after those holidays, individual holiday rotation shall take precedence. The Employer will notify employees of their vacation dates by the first Monday in March. Vacation requests made outside the scheduled posting period will be approved or denied by supervision within four (4) weeks of the request. Subject to staffing and patient care requirements; length of service in the bargaining unit shall be the determining factor within each department or facility in vacation selection during the designated posting period.

PTO that has been scheduled and approved will not be cancelled under the following conditions:

a. The employee had adequate PTO or could reasonably be expected to have accrued adequate PTO by the time that the time off is scheduled to occur.
b. The employee's PTO hours have been impacted due to unforeseen illness or injury.
c. The employee does not have any attendance/tardy-related discipline in the past twelve (12) months.
d. The employee is within twenty-four (24) PTO hours of having enough PTO to cover the scheduled time off.
e. Time off for hourly employees that is not covered by PTO will be unpaid- Leave no Pay Approved (LNA). This time off is a maximum of twenty-four (24) hours (prorated for FTE) that may only be used in one (1) instance per year and the hours may not be split up amongst multiple occasions. The employee may not choose to use unpaid time instead
of available PTO. The LNA time under this circumstance will not count as an occurrence for attendance tracking purposes and is subject to manager approval.

f. Unforeseen situations such as emergencies, catastrophic conditions and the like may necessitate scheduled PTO to be cancelled.

10.6.1 Vacation Scheduling for NHS ARNPs.
The vacation year shall be based upon an employee's anniversary date. Employees may schedule and take PTO as vacation to the extent it has been earned. Vacations shall be scheduled by the Employer in such a way as will least interfere with the functions of the department and the continuity of patient care. The Employer will make a good faith effort to secure adequate staffing to provide improved vacation scheduling opportunities.

Vacations shall be scheduled in the Department and a vacation scheduling chart will be posted electronically in the department from January 2 through January 16 that covers the vacation period of July 1 through December 31 of that year. A vacation scheduling chart will be posted electronically in the department from August 1-August 15 that covers the vacation period of January 1 through June 30 of the following year.

Employees who fail to register their vacation selection during the period of posting will forfeit their seniority rights concerning vacation schedules. Where vacation conflicts with the rotation of holidays, and/or the day before and the day after those holidays, individual holiday rotation shall take precedence.

The Employer will notify employees of their vacation dates on or before February 28 for the January posting and on or before September 30 for the August posting. Vacation requests made outside the scheduled posting period will be approved or denied by supervision within four (4) weeks of the request. Subject to staffing and patient care requirements, seniority date shall be the determining factor within each department or facility in vacation selection during the designated posting period.

PTO that has been scheduled and approved will not be cancelled under the following conditions:

a. The employee had adequate PTO or could reasonably be expected to have accrued adequate PTO by the time that the time off is scheduled to occur.
b. The employee's PTO hours have been impacted due to unforeseen illness or injury.
c. The employee does not have any attendance/tardy-related discipline in the past twelve (12) months.
d. The employee is within twenty-four (24) PTO hours of having enough PTO to cover the scheduled time off.
e. Time off for hourly employees that is not covered by PTO will be unpaid- Leave no Pay Approved (LNA). This time off is a maximum of twenty-four (24) hours
(prorated for FTE) that may only be used in one (1) instance per year and the hours may not be split up amongst multiple occasions. The employee may not choose to use unpaid time instead of available PTO. The LNA time under this circumstance will not count as an occurrence for attendance tracking purposes and is subject to manager approval.

f. Unforeseen situations such as emergencies, catastrophic conditions and the like may necessitate scheduled PTO to be cancelled.

10.7 Transfer of Unused PTO.

During the Open Enrollment Period, employees may elect to transfer up to forty-eight (48) hours into their Extended Illness Bank (EIB) account at one hundred percent (100%) value. The minimum transfer to EIB is one (1) hour. PTO account balances may not go under eighty (80) hours.

In order to exercise this election, eligible employees must notify Human Resources within the Benefits Open Enrollment Period of their decision to transfer the current year's accrual to EIB. The EIB hours will accumulate year-to-year to a maximum of five hundred (500) hours.

10.8 Extended Illness Bank (EIB).

Employees shall accrue forty-eight (48) hours per year (prorated for part-time employees) into the Extended Illness Bank (EIB) for use in the event of extended illness. The accrual shall be at the rate of 1.85 hours per pay period or .023 hours per hour worked. The maximum accumulation to the EIB bank shall be five hundred (500) hours. Employees who reach the five hundred (500) hour cap will not accrue additional EIB hours until their accrual drops below five hundred (500) hours. Employees with existing (as of the date of contract ratification) accrued EIB hours in excess of five hundred (500) hours will retain and utilize those hours first, and will not accrue additional hours until their accrual is below five hundred (500) hours. EIB hours may be used in the event of an illness lasting longer than sixteen (16) consecutive scheduled work hours (prorated for part-time employees). The first sixteen (16) consecutive hours of scheduled work time (prorated for part-time employees) missed due to an illness shall be deducted from the employee's PTO account. As an example of pro-ration, an employee assigned a 0.5 FTE may access EIB after the first eight (8) consecutive hours of scheduled work are missed due to an illness. (0.5 FTE x 16 work hours= 8 hours.)

Employees will use sixteen (16) consecutive hours of PTO (prorated for FTE) for each occurrence of illness or certified health condition for the employee or the employee's qualified family member before using EIB hours. For example: An employee has been certified as having asthma. As a result, the employee is absent for three (3) eight (8) hour days due to asthma. PTO is used for the first two (2) eight (8) hour days and EIB is used for the third (3rd eight (8)-hour day. Two (2) weeks later, the employee has another asthma attack or a different illness or qualifying family illness that requires an absence of another three (3) days. Because this is a
different occurrence, the employee will use another sixteen (16) consecutive PTO hours, and available EIB hours will be used beginning on the third 3rd day.

There are five (5) exceptions for which EIB hours may be used for the first day of absence due to illness:

1. Occupational Injury - In the event an employee incurs an occupational injury for which the employee is eligible for workers compensation insurance, then the employee will have access to his/her EIB accrual at the first day of absence due to the occupational injury if requested by the employee. Otherwise, employees may use PTO or have the time be unpaid.

2. Relapse - In the event an employee suffers a relapse of the same illness within five (5) calendar days of returning to work, the additional hours of illness shall be treated as part of the original illness for purposes of eligibility to access the EIB.

3. Ten-Day Absence - In the event an employee has an extended illness lasting ten (10) or more calendar days, the first sixteen (16) scheduled hours of work (pro-rated for part-time employees) missed due to that illness shall be paid retroactively from the employee's EIB account.

4. Hospitalization - In the event an employee is hospitalized overnight, the employee will have access to his/her EIB accrual at the first day of absence due to the hospitalization. Same day surgery, if requiring five (5) or more days of recovery, may also be paid from the employee's EIB account.

5. On-going Treatment Following an Illness, Medical Procedure or Injury. If a medical condition of an employee or the employee's qualified family member requires on-going therapy and/or treatment (such as chemotherapy, radiation treatment and physical therapy), the additional hours of illness or on-going therapy and/or treatment shall be treated as part of the original condition for purposes of eligibility to access the EIB. The employee will not be required to use sixteen (16) hours of PTO (pro-rated for part-time employees) for each follow-up therapy and/or treatment as long as the employee has used the sixteen (16) hours (pro-rated for part-time employees) for the medical condition, illness, procedure or injury that precipitated the on-going therapy and/or treatment. This provision does not apply to ongoing maintenance of chronic conditions.

10.9 PTO Compensation.

Accrued PTO as appropriate shall be payable at the employee's regular rate of pay on the first (1st) day of bona fide illness, injury, disability due to pregnancy or childbirth, or illness or injury of the employee or the employee's dependent child, spouse, parent, parent-in-law, or grandparent, pursuant to state law. Employees shall be required to notify the Employer at least two (2) hours in advance of the employee's scheduled shift if unable to report for duty on the first shift. Three (3) hours' advance notice shall be required if the employee is unable to report for scheduled duty on the second or third shift. Failure to do so may result in loss of PTO compensation for that day.
The Employer reserves the right to require reasonable proof of illness. Proven abuse of accrued PTO (i.e., a false claim of illness or other justification for an unscheduled absence) shall be grounds for discharge.

10.9.1
Accrued PTO shall not be payable on contractually designated or scheduled holidays.

10.9.2 Excessive Absenteeism.
Unscheduled time off is considered excessive if it occurs more than six (6) times during a year or for more than three percent (3%) of the employee's work time.

10.10 Medical Appointments- Non-Exempt Employees.
Employees will be expected to schedule medical appointments and/or treatments during non-working hours. Paid release time will be allowed for medical and dental appointments and/or treatments which an employee is unable to schedule during non-work hours. Up to four (4) hours per calendar year may be included as release time, to be paid only when a minimum of three (3) days' advance notice is received and the absence is approved by management. Release time for medical appointments and/or treatments with Group Health is subject to supervisory approval based upon patient care considerations and departmental needs. Medical appointment time will be taken in at least one (1) hour blocks of time. These four (4) hours will not be considered occurrences for attendance purposes.

10.11 On-The-Job Injury.
Accrued PTO may be used to supplement the amount received by an employee from Workers Compensation Insurance as provided in Section 12.5 up to the amount of the employee's pay for the hours the employee would have worked had the employee been available for work.

10.12 Paid Sick Time Laws.
To the extent permitted by applicable law, the provision of any law, regulation or ordinance establishing minimum standards for the provision of paid sick and/or safe time that is enacted, or has been enacted by, the United States, the State of Washington or any political subdivision thereof (including but not limited to the City of Seattle (Seattle Municipal Code Ch. 14.16) and the City of Tacoma (Tacoma Municipal Code Ch. 18.10) shall not apply to any employees covered by this Collective Bargaining Agreement. The requirement of such laws, regulations and ordinances are expressly waived.
ARTICLE 11 - LEAVES OF ABSENCE

11.1 Leave Request.

All leaves of absence shall be requested from the Employer in writing as far in advance as possible stating the amount of time requested. A written reply will be given by the Employer in response to the request. Leaves of absence for the purpose of extending vacation shall be entirely at the convenience of the Employer. A written reply to grant or deny the request shall be given by the Employer within thirty (30) days. Temporary employees shall not be eligible for any leave of absence.

11.1.1 Reinstatement.
When a nurse returns from a leave of absence not exceeding thirty (30) days, she/he shall be assigned to the same position, shift and unit held before the leave.

11.1.2 Maintenance of Seniority.
Leave with pay or for industrial injury shall not alter a nurse's anniversary date of employment or otherwise affect her/his compensation or status with the Employer. Leave without pay for a period less than thirty (30) consecutive calendar days shall not alter any regular employee's anniversary date of employment. Employee-initiated leave without pay for up to four (4) days (32 hours) per calendar year shall not alter any regular employee's Paid Time Off accrual. This limitation shall not apply to low census/low need.

11.1.3 Return to Position.
A leave of absence will guarantee an employee the first available position for which the employee is qualified if the employee reports back to the Employer on or before the expiration of the leave.

11.2 Military Leave.

A regular employee called for military duty will be paid the difference between the pay they receive for such service and the amount of regular pay lost by reason of such service up to a maximum of one hundred twenty (120) hours in any rolling twelve (12) month period for routine training, and the first ninety (90) days of active duty. Leave required in order for a regular employee to maintain status in a military reserve of the United States shall be granted without loss of accrued benefits. Leave for active military duty shall be granted in accordance with applicable law. In order to be eligible for payments under this paragraph, the employee must furnish Group Health with a copy of the employee's government check stub(s) showing the amount of military pay received. Except as provided in this paragraph, time off for military duty will be unpaid, although the employee may voluntarily choose to use available PTO.
11.3 Health Leave.

In order to provide job protection for employees who are not covered by FMLA, after one (1) year of continuous employment with an FTE, one (1) durational leave of absence per rolling calendar year will be granted to employees who are not eligible for FMLA leave for a personal illness or injury, or disability because of pregnancy or childbirth without loss of accrued benefits. An employee who exhausts all of their FMLA leave is not eligible for a health leave.

A leave of absence begins on the date of first absence from work. Accrued Paid Time Off (PTO) and Extended Illness Bank (EIB) for the period of temporary disability shall be used during this period, except that an employee may elect to reserve up to eighty (80) hours (prorated for part-time employees) of PTO. The one (1) year service requirement shall not apply to health leaves for temporary disability due to pregnancy or childbirth. The Employer will use reasonable efforts to staff the vacant position created by the leave of absence on a temporary basis for the period of the employee's sick leave, subject to patient care considerations and departmental needs.

All persons hired temporarily to replace employees who are on leave of absence shall be so advised and shall be informed of the approximate date the regular employee is expected to return.

Length of service credit and benefits will not accrue but will remain the same as at the time of beginning the leave. Prior to returning to work after an extended absence for personal illness or injury, the Employer may require a statement from the attending physician attesting to the employee's capability to perform the work required of the job. Health leave shall not exceed six (6) months. If a health leave of absence exceeds twelve (12) weeks, only then may the Employer permanently fill the vacancy. If the Employer has filled the position permanently, pursuant to the above, the employee on leave of absence, upon returning to the job during the six (6) month health leave period, will be offered the first open position for which the employee is qualified.

11.4 Family Leave.

Pursuant to the Family and Medical Leave Act of 1993, upon completion of one (1) year of employment, an employee shall be granted up to twelve (12) weeks of unpaid leave to: (a) care for the employee's child after birth, or placement for adoption or foster care; or (b) care for the employee's spouse/domestic partner, son or daughter, or parent, who has a serious health condition; or (c) for a serious health condition that makes the employee unable to perform the employee's job, provided that: the employee shall have worked one thousand two hundred fifty (1,250) hours in the twelve (12) months preceding the start of the leave; (It being understood that hours worked includes all "low census hours" and all hours for which the employee was on unpaid union leave). The Employer shall maintain
the employee’s health benefits during this leave and shall reinstate the employee to the employee’s former or equivalent position at the conclusion of the leave. The use of family leave shall not result in the loss of any employment benefit that accrued prior to the commencement of the leave. Under certain conditions, family leave may be taken intermittently or on a reduced work schedule.

If a leave qualifies under both federal and state law, the leave shall run concurrently. Ordinarily, the employee must provide thirty (30) days’ advance notice to the Employer when the leave is foreseeable. An employee shall use accrued paid leave time for which the employee is eligible during family leave, except that an employee may elect to reserve up to eighty (80) hours (pro-rated for part-time employees) of vacation. Family leave shall be interpreted consistently with the conditions and provisions of the state and federal law.

11.5 Dependent Care Leave.

After one (1) year of continuous employment, an unpaid leave may be granted to an employee to care for a dependent child who resides with the employee for conditions other than those set forth in Article 11.4 (Family Leave) or for the care of a dependent parent or spouse or domestic partner of the employee. Such leave will occur without loss of seniority or accrued benefits, subject to the Employer’s policy on vacation carryover. An employee on childcare leave shall be entitled to the first available position for which she/he is qualified. Such leave shall not exceed (1) one year.

11.6 Jury Duty.

Regular employees who are called to serve on jury duty shall be compensated by the Employer for their scheduled days of work that the employee is required to report for jury duty. Employees called to jury duty who intend to serve will notify the Employer at least three (3) weeks in advance of their jury service or the employee may not be paid for the time they are required to report for jury duty. When an employee is excused from jury duty for all or part of a scheduled day, the employee will immediately contact his or her supervisor/manager for a work assignment. Employees required to return to work will continue to be paid during the transition from jury duty to work time.

11.7 Bereavement Leave.

A regular employee shall be allowed a maximum of three (3) scheduled days off (need not be consecutive) with pay by reason of a death in the employee's immediate family. The term "immediate family" includes

Spouse/domestic partner
Mother

One (1) additional day off with pay will be granted when an employee is required to travel more than five hundred (500) miles in any one direction to attend the funeral. Regular employees may not take bereavement leave for days on which they were not regularly scheduled to work.

11.8 Sabbatical Leave.

The purpose of a sabbatical leave is to provide an extended period of leave from a registered nurse’s customary work to acquire new skills and training. The sabbatical makes available the necessary time to pursue significant professional development activities, e.g., full-time academic study, participation in research projects, foreign travel to examine alternative health care options, providing health care in underserved areas, publishing.

Registered nurses are eligible for their first sabbatical after working a minimum of ten (10) years of continuous regular employment as a registered nurse. An employee who qualifies may request 1) a sabbatical of up to six (6) months, or 2) a sabbatical of up to one (1) year after working thirteen (13) years of continuous regular employment. Registered nurses granted a sabbatical will receive fringe benefits consistent with their FTE level, subject to the availability of insurance coverage, and will retain their seniority. The total number of sabbatical leaves that may be granted during any one year will not exceed ten (10).

An employee granted a sabbatical agrees to return to employment with Group Health following sabbatical for at least one (1) year. Employees returning from sabbatical leave of no more than six (6) months shall be reinstated to their prior position. Thereafter, employees will be reinstated to the first available position.
An employee is eligible to apply for another sabbatical only after seven (7) years have elapsed after the original sabbatical leave. The education committee under Article 14.1 shall recommend criteria for selection of the candidates and other guidelines for administering the sabbatical leave.

11.9 Educational/Professional Leave.

District, State, or National Officers of the Professional Nursing Association shall be exempt from the six (6) months' eligibility requirement of this Section. Professional leave/time may be used for professional nursing certification exams.
Educational/professional time shall be paid at straight time when taken on a scheduled day off. Paid educational/professional time taken on a scheduled day off shall not be included as time worked for purposes of calculating overtime under Article 7.4 or the accrual of benefits.

The Employer shall provide long-term disability insurance for regular employees assigned a 0.75 FTE or greater, subject to the terms and conditions of the plan, and employee's agreement to pay the required monthly premium cost share.
12.9 Child Bonding.
The Employer shall provide child bonding leave for regular employees assigned 0.75 FTE or more with at least one (1) year of service. Child bonding leave is two (2) weeks of leave at the regular rate of pay, pro-rated for FTE, provided to parents of a newborn baby or a child newly-placed for adoption. Child bonding leave must be completed within six (6) weeks of the child's birth or placement for adoption, and runs concurrently with other forms of leave an employee might be eligible for (such as FMLA, LTD).

12.10 Adoption Assistance.
The Employer shall provide the standard adoption reimbursement benefit (currently up to two thousand dollars ($2000)) to help offset the costs of adopting a child for regular employees assigned 0.75 FTE or greater with at least one (1) year of continuous Group Health employment.

12.11 Eligibility Requirements.
Participation in medical, dental, insurance, pension and other benefits specified in this Agreement shall be subject to the specific terms, conditions and eligibility requirements of the benefit plan unless otherwise specified in this Agreement.

12.12 Domestic Partner.
Domestic partners will be included in dependent coverage for employees assigned a .75 or more FTE status. The term "domestic partner" as used throughout this Agreement will be as defined in the Group Health affidavit of marriage/domestic partnership. The definition of "son and daughter" as used in Article 11.5 shall include the child of the employee over the age of 18 years but who is eligible for dependent coverage under the terms of the Employer's Group Medical Coverage Plan.

12.13 Flexible Spending Accounts.
This is to acknowledge that Group Health offers all employees the opportunity to reduce taxes through flexible spending accounts (FSA) for health care and/or dependent care expenses and pre-tax medical/dental insurance premiums.

12.14 Short Term Disability.
The Employer will provide access to a short term disability supplemental insurance plan to employees through payroll deduction. Such plan will be 100% paid for by the employee through
payroll deduction using pre-taxed dollars. Prior to the implementation, the Employer will review the plan with the Union. If an employee purchases the short-term disability insurance plan and incurs hours of leave that would qualify for both short-term disability and Extended Illness Bank paid leave, the employee may elect to use either short-term disability leave or Extended Illness Bank hours.

ARTICLE 13 - REBID- LAYOFF - RECALL

13.1 Layoff.

In the event that a permanent or prolonged reduction in the number of regular full-time or part-time employees in a job classification within a work unit is determined by the Employer to be necessary, layoff procedures will be instituted on the affected work unit. If a reduction in staffing is needed, a layoff will be considered before any reduction of hours under Article 13.5.1. Upon request the parties will meet for the purpose of discussing implementation of the layoff. Prior to issuing a formal notice of layoff, hiring into all vacant positions in western Washington facilities will cease (or, for employees in EW, all vacant positions in EW facilities).

13.2 Layoff Notice.

Except in emergency situations or unforeseeable conditions beyond the Employer's control, the Union and employees involved shall be given at least thirty (30) days' advance written notice of layoff. Employees on the Low Seniority Roster whose position is assumed ("bumped") by a more senior employee (or, in EW, employees whose position is assumed ("bumped") by a more senior employee subject to layoff) subject to layoff will be given at least 10 days advance notice.

13.3 Work Unit Rebid and Layoff Process.

To be used for multiple FTE changes, multiple length of shift changes, reduction of more than one position, and unit mergers/closures.

13.3.1 Work Unit Rebid (Round 1). Work unit rebid for future state positions in the work unit by job classification. Employees, in order of seniority, may select:

1) Future state position;
   a) There is no restriction on employees increasing or decreasing FTE or changing shifts during Round 1
   b) Any employee with a .5FTE or greater who selects a future state position in Round 1 that results in a qualifying FTE decrease (more than .25FTE) may choose to accept the position (and go on recall) or to move into Round 2, but would have options as described per 13.5.1 "Hours
Reduction”. Those who move into Round 2 maintain their Round 1 selection until/unless they choose another option in Round 2.

c) Any employee with a .5FTE or greater whose only option is a future state position in Round 1 that results in an hours increase (more than .25 FTE) is considered to be "assigned" but must work this increased FTE for 6 months before additional rights per 13.5.2 "Hours Increase" may be triggered.

OR;

2) Move to Round 2
   a) The number of staff allowed to move to Round 2 is equal to the number of position eliminations identified in this Round

13.3.2 Layoff process (Round 2). Employees, in order of seniority, may select:

1) Vacancy for which the employee is qualified
   a) FTE reductions or increases will not trigger additional options as they do in Round 1
   b) If employee declines a comparable vacancy and fails to select another vacancy, the employee must resign from Group Health.

OR;

2) If there is no comparable vacancy, employee may select one of the following:
   a) Severance benefit, if eligible (qualifying hours reduction employees are not eligible); or
   b) Recall rights; or
   c) For employees not on the LSR/least senior person, assume any position on the appropriate Low Seniority Roster (or in Eastern Washington, the employee may choose a position "bump" of the least senior person in EW in the same job title (for example, "Staff Nurse" or "Liaison Nurse"). In all cases the employee must be qualified for the position; or
   d) Resign from Group Health

13.3.3 Low Senior employees who are bumped may select (Round 3). Employees, in order of seniority, may select:

1) Vacancy for which the employee is qualified
   a) FTE reductions or increases will not trigger additional options as they do in Round 1
   b) If employee declines a comparable vacancy and fails to select another vacancy, the employee must resign from Group Health

OR;

2) If there is no comparable vacancy, employee may select one of the following:
   a) Severance benefit; or
   b) Recall rights; or
13.4 Single Position Elimination.

In these situations, the Employer will first seek volunteers and no rebid is required. The least senior employee on the unit will be subject to layoff, provided that the remaining employees are qualified to do the work remaining. Employees not subject to layoff will be reassigned in order of seniority to all remaining positions so long as patient care and staffing considerations (including weekend coverage) are met. An employee subject to layoff shall participate in the layoff process, starting with Round 2.

13.5 Single FTE increase or decrease.

In these situations, the Employer will first seek volunteers and no rebid is required.

13.5.1 Hours Reduction.

It is Group Health's intent to assign employees an FTE status consistent with the number of hours normally assigned and worked by the employee on a regular, continuing basis. It is not Group Health's intent to reduce an employee's FTE for purposes of eliminating an employee's eligibility for medical coverage. If a reduction in FTE is determined by the Employer to be necessary, the Employer will first ask for volunteers from the unit and shift where changes are needed. When involuntary reductions are needed, the Employer will make a good faith effort to reduce the hours of the least senior person on a work unit and shift, subject to patient care needs, staffing considerations and hours of operation.

Any employee subject to an involuntary reduction in their FTE resulting in a loss of employee or dependent medical insurance coverage will be placed on the recall roster for a period of twenty-four months subject to the requirements of Article 13.6.

An employee who is assigned to a .50 or more FTE status whose hours are reduced more than .25 FTE shall have the following options:

1) The employees shall, by seniority, be offered any vacant position for which they are qualified prior to the vacant positions being offered to employees not subject to an hour's reduction.

2) Accept the reduced hours. An employee choosing this option may elect to be placed on the recall roster for a period of twenty-four months subject to the requirements of Article 13.6. Failure to accept a position comparable to that held prior to the schedule change will result in termination of recall rights.

3) For employees not on the LSR/least senior person, if there is no comparable vacancy, the employee may select a position from the low seniority roster (on in EW, the position of the least senior person in the same classification).
In the event that additional regular hours in a classification become available on a continuing basis in a unit, department, or facility, the Employer will assign the hours to the regular continuing schedule of the most senior qualified employee in the classification who has had an FTE reduction under this Article, if the Employer determines the assignment of hours best satisfies staffing, scheduling and other operational and patient care needs. In making its decision, the Employer will give consideration to the adverse impact on the employee and employee morale.

The Employer will continue to provide dependent medical coverage for the first month in which an employee’s dependents are no longer eligible as a result of an FTE reduction pursuant to this provision.

13.5.2 Hours Increase.
It is Group Health’s intent to assign employees an FTE status consistent with the number of hours normally assigned and worked by the employee on a regular, continuing basis. It is not Group Health’s intent to permanently increase an employee’s FTE, absent mutual agreement, as a means to permanently filling vacant FTE in the department.

In the event that Group Health needs to make a temporary increase to an employee’s FTE in order to provide coverage for a vacancy in the process of being filled, the Employer will first ask for volunteers from the unit and shift where changes are needed. When an involuntary increase is needed, the Employer will make a good faith effort to increase the hours of the least senior person on a work unit and shift, subject to patient care needs, staffing considerations, and hours of operation. The Employer will notify the affected employee(s) in writing of the effective date of the increase and, to the extent known, the expected duration of the increase.

In the event that an employee who was formerly assigned to a 0.5 or more FTE status is assigned an hour’s increase of more than 0.25 FTE that lasts for six or more months, the employee shall have access to the following options:

1) The employee shall, by seniority, be offered any vacant position for which they are qualified prior to the vacant positions being offered to employees not subject to an hours increase.

2) Accept the increased hours. An employee choosing this option may elect to be placed on the recall roster for a period of twenty-four months subject to the requirements of 13.6. Failure to accept a position comparable to that held prior to the schedule change will result in termination of recall rights.

3) For employees not on the LSR/least senior person, if there is no comparable vacancy, the employee may select a position from the low seniority roster (on in EW, the position of the least senior person in the same classification).
13.6 Recall Process.

13.6.1 Recall Roster.
Employees who select recall shall be placed on a recall roster for a period of twenty-four (24) months from the date of layoff. An employee placed on the recall roster shall provide and keep updated while on the recall roster a current mailing address, email address and telephone number where the employee can be reached, including an alternative phone number where the employee can be reached within two business days. Employees on the recall roster remain eligible to attend any Group Health-sponsored continuing education activities at the employee tuition rate.

13.6.2 Order of Recall.
As vacancies occur, employees will be recalled to available work in the order of the seniority providing skill; competence and ability are considered substantially equal in the judgment of the Employer. Subject to the above qualifications, an employee on layoff shall be offered reinstatement to vacant positions prior to any employees being newly hired and after any appropriate internal transfers as further set forth in this section. Employees regularly assigned to a specific unit, department or facility will be given preferential consideration for transfer to other shifts or positions in that unit, department or facility over all other employees except more senior employees returning from layoff status to their previous unit and shift or position and department/facility. If any offer of recall is accepted, the employee shall be deemed recalled and be removed from the recall roster. Any recall of employees out of seniority will be communicated to the Union representative in advance of the recall.

13.6.3 Refusal of Offer.
An employee who refuses an offer of recall to comparable employment shall be terminated.

13.6.4 Statements of Continued Interest.
Employees who have been on recall for six (6) months or more must submit to the Employer a written statement indicating a continuing interest in employment that is received by the first business day of the seventh (7th) month and on a monthly basis thereafter. If the employee fails to meet this requirement by the first business day of each month, the employee's name will be eliminated from the recall list and the Employer's recall commitments shall terminate.

Employees may voluntarily enter into a written agreement with the Employer to waive recall to those types of non-comparable vacant positions as specified by the employee. The employee may change or cancel any such waiver by providing the Employer with appropriate written notice on the designated form available from the Human Resources
Department. Any changes or cancellation of waiver is effective only upon receipt by the Employer as to those positions still available for recall.

13.6.5 Duration of Recall Rights.
The Employer's obligation contained herein shall cease after twenty-four (24) consecutive months on layoff status, if the employee refuses to accept an offer of employment pursuant to Article 13.6.3, or if the employee fails to comply with the requirements of Article 13.6.4.

13.7 Definitions

13.7.1 Severance Benefits.
Benefits will consist of severance pay and extended medical benefits. Employees will be entitled to two (2) weeks of severance pay for each year of service to a maximum of twelve (12) weeks of severance pay, appropriately prorated to the employee's FTE and rate of pay at the time of selecting severance. Non probationary employees who have less than one (1) year of service shall be entitled to two (2) weeks of severance pay. Years of service shall be calculated on the employee's last day of employment with the Employer.

Extended medical coverage will consist of Group Health paid medical benefits for the employee at their current benefit level and enrolled family members or other dependents under the Group Health Cooperative Medical Coverage Plan for a period of twelve (12) months after the date on which their medical coverage would have otherwise terminated because of the termination of their employment with Group Health. Should the former employee become eligible for Medicare, the Group Health provided medical coverage will switch to Medicare supplement coverage for the remainder of the twelve months when the employee timely registers for Medicare.

13.7.2 Initially Subject to Layoff.
The number of employees initially subject to layoff is defined as the number of least senior bargaining unit employees on the unit whose total FTEs satisfies the required FTE reduction. The actual number of bargaining unit employees who are finally eligible to exercise layoff options as provided in Article 13.3 may be different than the number initially subject to layoff due to the choices exercised by eligible employees during the reassignment process.

13.7.3 WWA Low Seniority Roster.
The Low Seniority Roster shall be a listing of the fifty (50) least senior employees within Group Health for a layoff when the number of employees initially subject to layoff is ten (10) or fewer. The listing shall consist of the seventy-five (75) least senior employees when the number of employees initially subject to layoff is between eleven (11) and thirty
and the one hundred (100) least senior employees within Group Health when the number of employees initially subject to layoff is between thirty-one (31) and fifty (50). The listing shall consist of the one hundred twenty five (125) least senior employees when the number of employees initially subject to layoff exceeds fifty (50). In the event the number of employees initially subject to layoff exceeds one hundred twenty five (125), the number of employees on the listing will equal the number of employees initially subject to layoff. For purposes of this section, least senior employees are those working in the Group Health's WWA facilities.

13.7.3.1 WWA Low Seniority Roster.
An employee identified for layoff whose name already appears on the Low Senior Job Roster, and any employee on the Low Senior Job Roster whose position has been selected as a result of this process, shall be subject to layoff with recall rights or severance benefits, providing the employee is eligible under the terms of the policy.

If there is a need to restrict the number of Low Seniority Roster employees within a work unit whose positions may be assumed so as to not compromise patient care, the Employer, prior to making a final determination, will meet with the Union in a good faith effort to reach agreement on the need for such a restriction. If there are any restrictions placed on the number of Low Seniority Roster employees within a particular work unit whose position is subject to being assumed, the Low Seniority Roster will be adjusted in order to provide the contractually required number of employees.

13.7.4 EW Least Senior Position.
An employee identified for layoff who is already the least senior person in a job title (for example, "Staff Nurse" or "Liaison Nurse") and any employee whose position has been selected as a result of this process, shall be subject to layoff with recall rights or severance benefits, providing the employee is eligible under the terms of the policy.

13.7.5 Discretionary Relocation Assistance.
In order to encourage and facilitate relocation from one work unit to another by those employees subject to layoff, Group Health may offer relocation assistance. When determined opportune, Group Health will rely on its then current policy, for any relocation assistance the employer may choose to offer.

13.7.6 Temporary Work.
Employees on layoff who are qualified shall be given preference to work intermittent shifts subject to the requirements for all temporary employees at the facility. Employees desiring temporary work while on layoff shall be responsible for contacting the facility where they desire temporary work to indicate the employee's interest and availability. Acceptance of intermittent work will not affect an employee's recall rights.

13.7.7 Work Unit.
A work unit is defined as primary care services in a medical center; specialty services in a medical center; a separately established urgent care department in a medical center with its own identified staff; a separately established ambulatory surgery center department in a medical center with its own identified staff; Home Health & Hospice services in a branch office of Continuing Care; Nursing Home Services; Bartell Drugs Care Clinics.

13.7.8 Comparable Employment.
For purposes of this Article, "comparable employment" or vacancy shall be defined to include:

(a) Same rate of pay;
(b) Similar shift, which is defined as a change of three hours or less in an employee's previous start time;
(c) Similar FTE, which shall be defined as a decrease or increase of 1 FTE in an employee's previously assigned FTE status;
(d) Similar geographic location;
   (1) Northgate, Lynnwood, Capitol Hill Campus
   (2) Burien, Renton, Federal Way, Capitol Hill Campus, Administrative Operations Center (AOC), Kent, Downtown
   (3) Downtown, Capitol Hill Campus, Rainier, AOC
   (4) Olympia, Tacoma, Tacoma South, Tacoma Medical Center, Puyallup
   (5) Bellevue Medical Center, Redmond, Renton, Factoria
   (6) Tacoma, Tacoma South, Port Orchard, Silverdale, Tacoma Medical Center, Poulsbo, Bremerton

   (14) Eastern Washington
   (15) Northwest District defined as Snohomish, Whatcom and Skagit counties, from the Lynnwood clinic to the Canadian Border.

13.7.9 Qualified.
For purposes of this Agreement, an employee will be considered qualified if, in the opinion of the Employer, the employee has the skills, competence and ability based on established criteria to perform the responsibilities of a particular position within the time period normally expected of an employee new to the position.
If, after four (4) weeks of orientation, the employee has not achieved a satisfactory level of performance in the judgment of the Employer based upon established criteria, the employee may resign or choose to be placed on the recall roster without further notice.

13.7.10 Multi-Unit Layoff/Unit Merger.
A multi-unit layoff occurs when there is a layoff as a result of the merger of two or more units and/or division of one or more units into new units. In the event of a work unit closure, employees of the work unit will exercise their layoff options provided in Article 13.3 in order of seniority.

13.7.11 Work Unit Closure.
A work unit closure occurs when a work unit ceases to operate because the Employer has decided to discontinue the type of service for the patient population normally provided within the work unit. In the event of a work unit closure, employees of the work unit will exercise their layoff options provided in Article 13.3 in order of seniority.

13.7.12 Future State Position.
Positions to remain in a work unit after taking into account the necessary reductions and/or schedule/FTE adjustments that need to be made.

13.7.13 Vacant positions.
Positions in the same job classification requiring comparable skills will not be filled during the period beginning with the notice of layoff to the date of the layoff. Additionally, subject to skill, competence and ability being substantially equal in the opinion of the Employer, the use of agency/registry employees in a vacant position in the affected unit will be discontinued prior to layoff.

ARTICLE 14 - COMMITTEES

14.1 WWA Nursing Practice Committees (NPC).
Nursing Practice Committees (NPCs) shall be instituted and maintained at Group Health. NPCs shall consist of Inpatient, Primary Care, Consultative Specialty, Care Management, and Home Health and Hospice Services. The purposes of these NPCs will be to: (1) assess and make recommendations to Administration on broad-based productivity, workload, patient acuity systems, or other issues such as scheduling practices and innovative staffing patterns that may impact or contribute to an improved work environment and patient care delivery, and, in recognition of the mutual desire of the parties to maintain staffing consistent with quality patient care and good working conditions, (2) serve as a resource for problem-solving and development of alternatives when chronic facility or unit-wide staffing problems have not been adequately addressed after reasonable efforts between staff and management at the facility or unit level.
Employees are responsible for first bringing such concerns to their manager in a timely manner for purposes of mutual discussion and problem solving.

Compliance with RCW 70.41.420 will be delegated to the inpatient NPC. Individual staff may identify a staffing concern and submit the concern in writing to their manager. The manager may convene a small workgroup of unit based staff to problem solve and make recommendations for resolution. The manager will acknowledge receipt of the staffing concern within seven (7) days and establish a mutually agreeable timeframe for resolution with the staff. If there is no resolution or unsatisfactory resolution, the staffing concern may be forwarded in writing by either the staff or manager to the next level of supervision. The next level of supervisor will respond in writing within fourteen (14) working days. If there is no resolution or unsatisfactory resolution the concern may be forwarded in writing to the next level of supervision (VP level) for final resolution in writing.

At any point in the process the manager or staff may forward in writing the staffing concern to the respective NPC for advice, input, and/or recommendations.

The NPCs may make recommendations to Administration in support of satisfactorily resolving such chronic staffing situations. Chronic facility or unit-wide staffing problems may be reviewed by the Joint Labor/Management Committee if not adequately addressed after recommendations have been made by the NPCs to Administration. The NPCs role in assessing staffing issues will include on-going evaluation of nursing delivery models through development of criteria (that may include staffing ratios) or measures to evaluate staff and consumer satisfaction, patient care outcomes, and cost efficiencies.

Except for the Primary Care and Consultative Specialty NPCs, each committee will consist of three (3) staff nurses and three (3) nurse managers. The NPCs will meet bi monthly or more often by mutual agreement. NPC members shall be compensated for their meeting time. Such meetings shall be scheduled so as to minimize conflict with scheduling routines. The NPCs will prepare an agenda and keep minutes of all meetings.

The Primary Care and Consultative Specialty NPCs will meet quarterly or more often by mutual agreement and will include no more than six (6) union-designated employees including LPN and MA members for the meetings that pertain to staffing and other team based issues. Agenda items for these meetings will be developed in advance.

The NPCs will develop and submit to Administration and the Joint Labor/Management Committee annual work plans. The NPCs will be advisory to Administration and will operate within the provisions of the collective bargaining agreement.
14.2 WWA Joint Labor Management Committee (JLMC).

It is the goal of SEIU Healthcare 1199NW and Group Health to engage in joint problem-solving efforts wherein the mutual interest of the Union and management can be addressed on an on-going basis during the term of this Agreement. The JLMC shall serve as a forum for union input to the management decision-making process and mutual education and information sharing by both parties. The primary goal of the JLMC is to support staff and management in the delivery of quality patient care, including improved conditions conducive to the delivery of quality care and the recruitment and retention of nurses.

The Employer and the Union recognize the importance of working together to provide an environment in which staff can effectively and safely provide care. The parties also recognize that staffing and workload are integral and critical elements of the work environment. The JLMC will develop an annual plan to address issues of mutual concern including but not limited to staffing, patient safety, workforce planning, etc.

The JLMC shall use an interest based process for problem solving.

The JLMC may address matters subject to collective bargaining but shall not substitute for the contractually agreed-upon process for resolving grievances under Article 16. Issues and problems pertaining to specific worksites will continue to be addressed at the facility or work unit level.

The approach, structure and composition of the committee may vary depending on the issues; however, each party will appoint a core of no more than five (5) representatives. The JLMC and/or the appropriate NPC may upon mutual agreement be convened to include members of the Service Unit to discuss staffing issues/concerns. Employee attendance at these meetings will be on paid time. The JLMC will meet quarterly or more often by mutual agreement.

As part of the JLMC’s work plan, it is agreed that in the first year of this agreement the JLMC will look at the structure of the nurse practice committees (NPCs) and make recommendations to improve the structure to ensure their success.

14.3 EW Relations and Communications Committee.

This committee is made up of both RN and Service staff. The Union and the Employer agree to establish a labor management committee to discuss shared work place concerns with the purpose of promoting good communications, problem-solving at the lowest appropriate organizational level and follow through on worksite resolutions. It is the intent of the Union and the Employer that the Committee has decision-making authority with the understanding that the committee members may need to confer with their respective organizations prior to reaching a final decision.
The committee will consist of three (3) Service union appointed representatives, three (3) RN union appointed representatives, and at least three (3) managers selected by the Employer. Participation on the committee will not result in loss of paid time. The committee is not intended to address matters appropriate for the grievance process but may resolve issues that might otherwise come forward as grievances. The committee will meet quarterly, or more often as determined by the group.

14.4 Nurse Practitioners Nursing Home Services Joint Labor Management Committee (JLMC).

It is the goal of SEIU Healthcare 1199NW and Group Health to engage in joint problem solving efforts wherein the mutual interest of the Union and management can be addressed on an ongoing basis during the term of this Agreement. The JLMC shall serve as a forum for mutual education and information sharing by both parties. The primary goal of the JLMC is to support staff and management in the delivery of quality patient care, including improved conditions conducive to the delivery of quality care and the recruitment and retention of Nurse Practitioners Nursing Home Services.

The JLMC shall use an interest based process for problem solving. Up to three (3) staff members shall be appointed by SEIU 1199NW to the Committee.

This JLMC will meet bi-monthly. JLMC members shall be compensated for their meeting time. Such meetings shall be scheduled so as to minimize conflict with scheduling routines. An agenda will be jointly developed by JLMC members and management prior to the meeting. Minutes will be kept of all meetings.

The purpose of this JLMC will be to: (1) assess and make recommendations to Administration on broad based productivity, workload, patient acuity systems, or other issues such as scheduling practices and innovative staffing patterns that may impact or contribute to an improved work environment and patient care delivery, and, in recognition of the mutual desire of the parties to maintain staffing consistent with quality patient care and good working conditions, (2) serve as a resource for problem solving and development of alternatives when chronic facility or unit wide staffing problems have not been adequately addressed after reasonable efforts between staff and management at the facility or unit level. Employees are responsible for first bringing such concerns to their manager in a timely manner for purposes of mutual discussion and problem solving.

The JLMC may address matters subject to collective bargaining but shall not substitute for the contractually agreed upon process for resolving grievances under Article 16. Issues and
problems pertaining to specific worksites will continue to be addressed at the facility or work unit level.

At the end of the contract term, the JLMC will determine if it is meeting its objectives. Factors that will be considered include: whether the JLMC’s effort is duplicative of another pre-existing committee, whether realistic, concrete recommendations for improvement are being generated, whether the JLMC is effectively meeting its purpose and if the time spent is providing a return to the organization and to the Nurse Practitioners Nursing Home Services.

Additionally, one (1) representative will be included in the ARNP Practice Workgroup.

14.5 Nurse Practitioners Work Group.

Group Health will continue to hold meetings between nurse practitioners with Group Health managers and the Medical Director to discuss issues of mutual concern related to the work of nurse practitioners including a study session on variable compensation and the potential impact on nurse practitioners.

a) Group Health supports ARNPs' participation in DNP programs to increase their proficiency in research appraisal, translation of evidence into practice and direct clinical expertise that will lead to the advancement of higher quality patient care. The ARNP Practice work group will engage in discussion over the next year on scope of duties and appropriate opportunities for DNP. Group Health and SEIU will discuss appropriate compensation. Employees who are in a DNP program or are graduates of a DNP program should participate in the development of the appropriate duties.

b) In addition, Group Health commits to using best efforts to remove internal Group Health barriers to having ARNPs/DNPs assuming positions that are part clinical and part administrative. Group Health recognizes the importance of ARNPs' ability to maintain licensure while working in administrative roles. Human Resources and Payroll will support efforts to encourage full utilization of the ARNP/DNP roles.

c) Group Health and SEIU will, through the ARNP practice work group, explore mechanisms to provide a variable pay program that could include secure messaging and other alternatives to visits, patient satisfaction scores, HEDIS, etc.

14.6 Steering Committee.

The parties will establish a Steering Committee consisting of Group Health President and CEO Scott Armstrong and Senior level staff along with SEIU Healthcare 1199NW President Diane Sosne and Senior Union leadership to meet for the purpose of developing the joint work to be conducted by the Steering Committee. The first tasks of the Steering Committee will be to identify areas of mutual interest to the parties, determine what the goals and scope of the Steering Committee are, establish a decision making process, introduce reporting out of the committee’s work, set the meeting agendas and location, and determine what, if any, training is
needed. The Steering Committee shall meet quarterly for one year (or more often if mutually agreeable), discuss the progress of the group, and then decide if/how future work should be organized. The Steering Committee shall not engage in collective bargaining nor shall it supplant or duplicate contract negotiations. The parties may employ the services of a neutral consultant/facilitator.

ARTICLE 15 - OCCUPATIONAL HEALTH AND SAFETY

15.1
The Employer will maintain a safe and healthful workplace in compliance with all Federal, State and local laws applicable to the safety and health of its employees.

15.2
The Employer shall form a Health and Safety committee composed of employee and Employer representatives. The purpose of the committee shall be to investigate safety and health issues and to advise the Employer of education and preventive health measures for the workplace and its employees. The committee shall allow for proportionate membership representation of employee groups. Broad-based and persistent health and safety concerns of individual employees or employee groups can be addressed to the Committee if they have not been adequately responded to at the facility or unit level.

15.2.1
In recognition of the need to increase organizational efforts and awareness to occupational hazards of registered nurses and hospital workers, management agrees to convene a subgroup of the Occupational Health and Safety Committee with the expressed purpose of 1) reviewing current data on workplace injuries, 2) identifying areas for improvement in the work environment to reduce injuries, and 3) making recommendations to the Executive VP.

The subgroup will identify and review relevant data needs related to workplace injuries. The recommendations of the subgroup will include identification of strategies to facilitate necessary changes in the physical workspace, use of appropriate equipment and training of staff. Recognizing that back, neck and shoulder injuries are caused by manually lifting patients and equipment, the medical costs and lost workdays associated with these injuries, the aging workforce, the need to recruit and retain more nurses and other healthcare workers, and the need to reduce worker's compensation costs, the Employer and the Union specifically are committed to evaluate the number of injuries caused by manually lifting and transferring patients and equipment. Building on the
previous work done at Eastside Hospital, the subgroup will work together to implement a comprehensive program to reduce such injuries.

The subgroup will convene its work and make preliminary recommendations no later than six (6) months from the time of its first meeting.       1) Employees working under this Addendum.
      2) Regular or temporary employees trained to work the sixteen (16) hour shift for after-hours care as provided for under this Addendum.
      3) Standby coverage: When Group Health identifies an urgent care need, and when coverage under (a) and (b), is not available, competent, daytime employees will be needed to provide standby coverage for after-hours care. Volunteers will be sought initially, with assignment on a rotating basis in inverse order of seniority the last option. Employee providing standby coverage will be paid according to article 8.6 of this agreement.

k. **Other Provisions** - All other provisions of the Group Health/1199NW Agreement not inconsistent with this Agreement shall otherwise apply.

**OTHER:**
1) **Group Health-SEIU Healthcare 1199NW leadership meetings on health care policy.**

The parties recognize that decisions made by elected officials and policy makers in Olympia and Washington, DC have an enormous impact on the financing of care and how care is delivered at Group Health. The parties further agree that the most effective way to advocate for a better health care system is to work in partnership on issues of common concern. Group Health Senior Leadership and SEIU Healthcare 1199NW Leadership agree to meet on a semi-annual basis to discuss health care policy issues and to determine if there is interest to develop joint action plans on any issues of common concern. If so, these issues will be referred to the Joint Labor Management Committee for specific planning and implementation.

2) **Consulting Nurse Services.** The Consulting Nurse Telecommuting Agreement will be used for those Consulting Nurses who work remotely.

3) **Eastern Washington Weekend Work.** During 2011 Collective Bargaining there was discussion around the concern from Eastern Washington Registered Nurses in Urgent Care who work every weekend in comparison to Western Washington Registered Nurses who, in accordance with the CBA, are scheduled only two (2) weekends out of four (4) successive weekends.

   While Group Health retains the right to determine schedules that accommodate patient care, it was agreed that if and when Group Health decides to expand the Urgent Care hours that would expand the need for weekend work then the parties agree to reconvene to address the feasibility of weekend rotation scheduling. The provisions of Article 7.6 shall not be a mandatory subject of bargaining unless agreed to by both parties.

4. **Chemically impaired nurse.** The Employer and the Union recognize that alcoholism and chemical dependency are acknowledged to be chronic, treatable medical conditions. The Employer and the Union support efforts which will enable the chemically impaired nurse to remain in professional nursing practice so long as performance expectations are maintained. In recognition of this mutual interest, the Employer and Union support such efforts as:

   a. Identification of the disease as well as the establishment of treatment options at an early stage to prevent or minimize erosion in work performance.
   b. Participation in programs and services through which employees may seek confidential assistance and treatment in the resolution of chemical dependency problems.
   c. Participation in the State Board of Nursing Substance Abuse Monitoring Program, including individually tailored return to work agreements.

The Employer further acknowledges that alcoholism and chemical dependency are health conditions for which the employee is eligible to use accrued PTO and/or health leave of absence under the same terms as other health conditions. It is the intention of the Employer to
work with an employee to adjust their work schedule on an ad hoc or temporary basis to support the chemically dependent employee's participation in prescribed treatment programs. The Employer and the Union acknowledge that employees continue to be responsible for their job performance and compliance with the Employer's policies and procedures and improvement of any unsatisfactory performance.

RE: Staffing

The Employer and the Union will continue to use their respective Joint Labor Management committees to assess and discuss staffing issues including but not limited to workload, scheduling practices, staffing patterns/guidelines etc., in recognition of the mutual desire to maintain staffing consistent with quality patient care and good working conditions. The parties will use current mechanisms such as the Nurse Practice Committees, Joint Conference Committees and JLMCs for these discussions. The committees will identify processes for regular updates on staffing which may include vacancy and turnover rates, productivity, and other metrics to support improved information about staffing. In the case of the RN and Service Joint Labor Management Committees, joint sessions will be appropriate when discussing issues that impact both bargaining units.

Memorandum of Understanding

Between Group Health and Unions United, a coalition of unions at Group Health that includes SEIU Healthcare 1199NW, UFCW Local 21, and OPEID Locals 8 and 23

Medical Benefit
The parties to this Memorandum of Understanding ("MOU") agree that Group Health Cooperative ("Group Health") will provide medical benefits to eligible union-represented staff in accord with the health plan design developed and agreed to by the parties during the Unions United Benefits Coalition bargaining which resulted in a comprehensive program to encourage overall employee wellness ("Tot.'11 Health"). The health plan design for Total Health will be maintained through 2017 (See attached Appendix A) and will be incorporated in the Summary Plan Description ("SPO").

The parties agree that Union-represented employees who earn the required credits in each applicable year shall pay a premium that is less than the premiums paid by union-represented employees who do not participate in Total Health and earn the required credits. Premium costs for both participants and non-participants are set forth in Appendix B.

New Participants
Any Union-represented employee entering the benefit plan after January 1 of any year will qualify for the lower participant rate for premiums paid in the following year. They do not need to complete their health screenings or take any other action. However, an employee on the benefit plan on or after October 1 of any given program year (October 1 September 30) must complete the Total Health requirements for that year in order to receive the lower premium the following year. To qualify for the lower participant premium after this the employee must meet the credit requirement for the applicable year. The intent of this paragraph is that no employee would be required to complete all the activities in less than nine (9) months from entering the benefit plan.

Spousal/Domestic Partner Surcharge
Spouses/domestic partners Of employees who decline coverage offered through the spouse's employer may enroll in the GHC plan through the employee at an additional premium cost of $100 per month effective January 1, 2015. The spousal/domestic partner surcharge will not apply under these conditions:

1. The employee's spouse or domestic partner (DP) is not employed
2. The employee's spouse or DP is employed and enrolls in their own employer's coverage (coordination of benefits would take effect between both plans)
3. The employee's spouse or DP is employed but his/her employer docs not offer medical coverage
4. The employee’s spouse or DP is not eligible to receive medical coverage from his/her employer.

The employee will be asked to attest that one of these conditions is true. The failure to provide the attestation will result in the smcharge being applied.

**Appeal Process**

Group Health will notify employees regarding whether they qualify for a lower participant rate by October 31, of every year. An employee wishing to appeal a determination must submit a written appeal to Human Resources department by 180 days from the date they were notified of their participant rate for the following year. Human Resources will notify employees of appeals decisions within 30 days.

The parties agree that from 2013 through 2017, the project manager of the Total Health Wellness program will review and issue a decision in the first level of appeal for union-represented employees who challenge qualification for the lower participant premium. If the project manager of the Total Health wellness program denies a first level appeal, an employee can request a second level review by the Appeals Committee. A request for a second level review must be submitted in writing to the Appeals Committee within 30 days of the employee's receipt of the first level decision. If the employee disagrees with the Appeals Committee's decision, then the employee may request a review by the third party determined by the Appeals Committee for a third level review. A request for a third level review must be submitted in writing to the Appeals Committee within 30 days of the employee's receipt of the second level decision. The decision of the third party shall be final and binding on the employee, the union that represents the employee, and Group Health. Notwithstanding the grievance and arbitration provisions of any collective bargaining agreement or the claims and appeals procedures set forth in the SPD, the appeal process set forth herein shall be the sole avenue for resolving any disputes regarding whether or not an employee qualifies for a lower participant premium.

The Appeals Committee will be comprised of 3 members from the union coalition, 3 members from the Administration, with alternates for each member, and a representative from Labor Relations, who will chair the committee and be the deciding vote in case of a vote that is tied. The Appeals Committee will review appeals at the second level based on the eligibility criteria of the Plan. At least 2 voting members (1 from union and 1 from Administration) and the Chair are needed for a quorum to hold a meeting.

**Dental Plan**

Dental plans and employee cost share percentages currently in place will continue through 2017.

**Benefits Labor Management Committee**
The parties agree to continue a Benefits Labor Management Committee ("BLMC") to meet at least quarterly to discuss issues related to medical and dental benefits. The BLMC will be comprised of employee representatives from all the bargaining units in the coalition in addition to union staff representatives. Management representatives will include the employee benefits manager, the wellness coordinator and Group Health Labor Relations representatives. The BLMC will review and provide input regarding various aspects of Total Health, including data relating to utilization, costs and plan requirements. The BLMC will also review and provide input regarding dental renewals, plan design and cost.

**Nondiscrimination**

The parties agree that participation or non-participation in Total Health will not impact job performance evaluations, nor will there be any penalty or discrimination based upon participation or non-participation in the program.

**Termination and Renewal**

This MOU shall be in full force and effect until the expiration date of December 31, 2017, and shall continue in effect from year to year thereafter unless any party gives notice, in writing, no earlier than December 1, 2016 and no later than December 31, 2016 of its desire to terminate or modify such Agreement; provided that, in the event that any party serves written notice in accordance with this Section, any strike or stoppage of work after the expiration date shall not be deemed in violation of any provision of this Agreement, or any other provision of an existing collective bargaining agreement between the parties. It is anticipated that existing collective bargaining agreements between the parties will expire prior to the expiration of this MOU. The terms set forth in this MOU shall not be subject to bargaining during the negotiations for the collective bargaining agreements unless both parties agree in advance.

No later than March 30, 2017, any party to this agreement may terminate their participation in the Benefits Coalition and shall have the right to propose to modify existing terms or provisions of the health plan as provided in this MOU; and separate from any other agreements that may be reached.

The parties to this agreement acknowledge the time-sensitive nature of implementing any successor agreements that would require health plan or wellness program changes in 2018. As a result, the unions and Group Health commit to completing negotiations by June 30, 2017.

Appendix B

Wellness credits and premium costs

Wellness Plan - The Total Health wellness plan will focus on cardiovascular health (heart health) beginning in 2014. Key heart health factors are body mass index (BMI), blood pressure (BP), and tobacco use (nicotine). The Wellness Plan will provide medical premium discounts by earning "cardio credits" (rather than points). The four key areas of the plan are:

- Health Screenings
- Health Assessments
- Journeys, Cardio Credits

Health Screenings - Health screenings will be required by the employee to earn a discount on the medical plan premium. The screening will provide employees with their key numbers (BMI, BP and nicotine) to help manage their health. Healthy ranges are as follows:

- **Nicotine** is no tobacco use
- **Blood Pressure** is less than or equal to 140/90 mmHg
- **BMI** is less than 30 or there is a 5% body weight loss from prior year's results

Screenings administered by a third party will be available annually at GHC sites for convenience. Or, numbers can be verified by the employee's normal health care team by completing the Health care provider form.

Health Assessments - To be eligible for a premium discount, employee and their enrolled spouses/partners are required to complete the online Health Assessment. The assessment gives a health score indicating potential for improvement and recommendations for action. The recommendations are called "Journeys".

Journeys - Employee can earn cardio credits by taking a journey. A journey is a personalized online tool to help individuals engage in activities and track progress towards their health goals. Journeys focus on nutrition, weight management, physical activity and better management of chronic conditions.

Cardio Credits - Employees will have an opportunity to qualify for a discount on medical plan premiums by earning cardio credits. One cardio credit is equal to one dollar. The health assessments required to be completed by the employee and spouse or partner every year to be eligible for a discount. The health screening is also required to be completed by the employee every year to be eligible for a discount.
The 2014 year: The employee must earn 750 cardio credits by completing: 1) health screening to learn their numbers (required), 2) complete the online health assessment (500 cardio credit), and 3) earn the remaining 250 cardio credits either through journeys or by participating in Quit for Life® tobacco cessation program or Weight Watchers®. These 750 cardio credits will be required to receive the 2015 premium discount of $750. In addition, the spouse or partner must complete the health assessment.

The 2015-2017: Employees must complete a health screening, and be within a healthy range or make progress towards the healthy ranges, and a health assessment. If the employee is not within a healthy range, then they can earn cardio credits through actions outlined in the table below. As long as the employee completed the heat screening and the health assessment (and if applicable, your spouse or partner has completed the health assessment), the cardio credits you earn will then be applied to the standard premium the following year up to the maximum discount amount. In some circumstances it might not be medically advisable for a participant to be within the healthy range. So to earn cardio credit, the health care provider form will allow the participant and their health care team to determine the best course of action.

The online health assessment, journeys and point tracking will be available through a new wellness website that will launch in 2014.

*Required activities to be eligible for a premium discount
- Employee must complete the Health assessment and the screenings (Nicotine, BMI and BP) each year to be eligible for any premium discounts.
- Spouse or partner must complete the Health Assessment each year in order for the employee to be eligible for any premium discount.

C. **Tardiness and Absenteeism** - The staff member must have demonstrated good attendance by being in compliance with the standards established in relevant KFHPW policies.

D. **Performance Standard** - The staff member must not be subject to any written performance disciplinary actions within the last 12 months.

E. **Continued Eligibility Requirements** - The staff member to remain eligible to work remotely must meet the above criteria as well as the requirements below:

   a. Work well independently, not requiring inappropriate consultation with colleagues, manager or medical director for assistance. This will be determined by the manager with feedback from colleagues and the medical director.

   b. Continue to demonstrate proficiency with the technical requirements of the job on SEID Healthcare I 199NW Telecommuting Agreement site.

   c. Live within a one hour commute (in regular traffic/non-peak time) from the normal work site in case of technical difficulties requiring on-site work. This requirement applies to an alternate work site outside of KFHPW facility.

F. **Night Shift**

   a. Any regularly scheduled night shift must all work onsite.

G. **Charge or Lead**

   a. Must all work onsite.

3. **Application and Selection**

   A. Any staff members wishing to apply will send an email to their manager expressing their interest. Managers will schedule a meeting with the candidates to review the request.

   B. Managers will notify the applicant in writing regarding their approval or denial of the telecommuting request.
C. If a candidate meets required qualifications, managers will determine selection as follows:

   a. Candidates who meet eligibility requirements will be eligible for consideration.

   b. Managers will prioritize remote positions to those staff members who meet or exceed performance expectations and can perform their job functions effectively within their assigned shifts and at remote locations.

   c. If multiple staff members meet requirements, seniority shall be the determining factor when such factors as skill, competence, ability and dependability are substantially equal.

   d. Telecommuting will be offered based on seniority and then qualifications during the initial implementation of telecommuting within the department. Qualified staff members who were not initially selected will be placed on a waiting list in order of seniority. After the initial implementation, any individuals requesting to telecommute will be added to the end of the list in order of their request.

   e. Once a waiting list has been established, when a telecommuter position becomes available (i.e., through retirement, resignation, termination, transfer to a different department at KFHPW, etc.), the first person on the waiting list will then be offered the vacated telecommuting position.

4. Returning to Work On-Site

   A. KFHPW will provide an onsite hotel workstation, if available, on a first-come first serve basis. KFHPW will make reasonable efforts to accommodate the ergonomic needs of telecommuters when in the KFHPW offices.

   B. Telecommuters agree to work a minimum of six-months using remote access. After the initial six month period or upon mutual agreement, the telecommuter or manager may terminate the telecommuting arrangement for any reason with 30-days written notice to the other party.

   C. If a telecommuter is asked, requests, or needs to work onsite, s/he must take an available workstation. S/he cannot “bump” another employee from a workstation unless mutually agreed upon by the other employee and the manager. Special efforts will be made to accommodate ergonomic needs of the staff.
D. The telecommuter will return to work onsite if the eligibility requirements are not met for three consecutive months in a 6 month period while telecommuting, unless otherwise specified in this agreement. The staff member would again become "eligible" for remote access after 3 months consistently meeting the standards. The staff member would be eligible to return to his/her previously held telecommuter position at the time. In the event the staff member loses telecommuting privileges twice, they will not be eligible to return to the previously held position. If the staff member has an FTE of .80 or greater, then he/she will then be assigned an available workstation.

E. The telecommuter may be required to work onsite due to equipment failure, failure to meet key job responsibilities, onsite coverage requirements, meetings, seminars, etc., that are away from the alternate work site. The telecommuter will attend on site mandatory staff meetings and in-services as requested by the manager. The manager will determine and indicate if the material to be presented is appropriate for remote attendance or review of on-line recordings of the material. The telecommuter is responsible for remaining current with materials presented at staff meetings and in services.

F. Telecommuter may need to work the scheduled shift on site in order to precept a colleague. The manager will make an effort to notify affected staff at least 2 weeks in advance but may need to ask a preceptor to work on site if an unexpected scheduling issue occurs.

G. In the future the telecommuter may be responsible for notifying the manager to assure adequate seating space prior to working on-site.

H. The telecommuter may be required to work onsite for their Performance and Development reviews.

I. In the event of an extended leave of absence, the telecommuter may be required to work onsite for re-orientation as determined by manager.

5. **Equipment Failure** - In the event of an equipment failure:

   A. Telecommuter will call manager to report the problem (even if it is short breaks in service) to see if others are experiencing the same problem (onsite or offsite).

   B. Telecommuter will then call the IT Helpdesk to report the problem. PLEASE MAKE SURE TO GET AN INCIDENT (INC) NUMBER.

   C. Telecommuter will notify the manager with the incident number, time of occurrence to denote the beginning of the nonproductive (NP) time of the
technical issue along with the status of the problem, i.e. if it is resolved or IT will call back. Once the issue is resolved, the telecommuter will notify the manager.

D. Non-exempt telecommuters will be paid NP time in the event of equipment failure. If the problem is not likely to be resolved within one hour, the telecommuter and manager will decide on the best course of action. Once the decision is made, the telecommuter is expected to be able to their leave remote location immediately to commute to the KFHPW work site. The telecommuter may need to work onsite until the end of the shift at the regular "quit" time. Under some circumstances, the manager may direct the telecommuter to come to the KFHPW site to work at the onset of the equipment failure, based on patient care needs.

E. Travel time will be paid at the regular rate of pay. As an alternative to corning in to work on site, by mutual agreement between the telecommuter and the manager, s/he may arrange to:

   a. Use PTO
   b. Use unpaid leave with benefits
   c. Use paid non-productive time at the manager's discretion, e.g. a telecommuter who is waiting for equipment to be delivered to the remote work site.
   d. Work later the same day

F. None of the above alternatives would result in overtime. Decisions will be made based on:

   a. time left in the shift
   b. distance from the work site
   c. estimated time for problem resolution
   d. length of queues
   e. inclement weather/ unsafe driving conditions.

6. **Power and/or Internet Outages** - In the event of a power and/or internet failure at the alternate work site, the telecommuter will immediately notify the manager and then contact the power company or internet service provider to determine the estimated time of restoration. If the power company or internet service cannot guarantee the return of service within one (1) hour, the telecommuter may need to come to the KFHPW facility immediately to work onsite for the reminder of the telecommuter's shift. Manager will decide the best course of action for the remainder of the telecommuter's work shift. Upon mutual agreement between the telecommuter and manager, the work shift may be flexed without triggering daily overtime.
7. **Information Security**

A. Telecommuters will abide by KFHPW and HIPAA confidentiality policies and shall be bound by those policies.

B. The telecommuter is solely responsible for ensuring the confidentiality of all patient and other confidential business information. This includes both telephone conversations and information visible on the screen at all times. The telecommuter will take every precaution to change to non-patient information screens if another individual enters the work area. Telecommuter will sign a KFHPW confidentiality statement. The telecommuter will use only the computer provided by KFHPW for work.

C. The telecommuter will use a shredder to destroy any hand written notes containing patient information or staff schedules, by the end of each shift. The telecommuter is not to have a printer attached to the KFHPW CPU.

8. **Work Process & Guidelines**

A. Telecommuting will be seamless to customers.

The workspace must be private and isolated from commons areas to avoid patient information being heard by others. The workspace must also be free of any ambient noise that could be heard by the consumer. During work hours, the telecommuter cannot be the primary caregiver for ANY family member, and must be totally dedicated to the job while on the job.

C. KFHPW retains the right to make on-site inspections of the alternative workspace. Telecommuters will be notified 24 hours in advance of an onsite visit. When Kaiser Permanente provides notice at least one work day prior during the regular work shift, such visit would occur anytime during the following workday shift. These visits may be for performance, security and occupational health and safety reasons.

D. The telecommuter is expected to be accessible and access email and respond if requested in a timely manner to Instant Messaging and to the manager during scheduled work hours. The telecommuter will be available during assigned work hours, just as when working onsite.

9. **Equipment & Resources**
A. KFHPW will provide the computer, monitor, software, surge protector, telephone and headset, and any other equipment necessary for the phone and computer to be operational.

B. Any hardware, software, or reference material purchased by KFHPW remains the property of KFHPW and will be returned by the telecommuter, should the telecommuter's employment or this agreement be terminated... The telecommuter will make arrangements with the IT services for the return of KFHPW provided equipment within two working days of their last day of employment or dissolution of this telecommuting agreement. KFHPW-owned software may not be duplicated except as formally authorized.

C. No software other than that necessary to perform tasks related to telecommuting at KFHPW is to be installed on the telecommuting computer, e.g. screen savers, games.

D. For the purposes of hardware and software security, the following policies will apply to all computer equipment used for telecommuting:

      i. All KFHPW orders require the site visit technician to contact IT before the home visit.
      ii. IT will provide instructions to both the nurse and the technician so that the business purposes for the visit and installation scope are clear.
   f. KFHPW IT manages the broadband circuit orders including installation and customer satisfaction.
E. Voice and internet Requirements

a. The telecommuter is expected to use voice communication software and hardware via high-speed internet access. The cost of the hook-up and monthly service for high-speed internet access will be the responsibility of KFHPW.

b. Additional equipment (such as a router) used for personal PC Internet access is the responsibility of the telecommuter.

10. Home Office

A. Each telecommuter is responsible for providing a work surface and an ergonomically correct, adjustable chair. Ergonomic keyboard and/or mouse purchased for the telecommuter's use at the KFHPW worksite may be taken to the home environment. This equipment will be transported by the telecommuter back to the worksite for shifts scheduled at the work site. Telecommuters will also transport their headsets to and from the onsite location.

B. If an altered workstation has been prescribed at the KFHPW worksite for ergonomic reasons, the same requirements must be met at the alternate worksite.
