# Respect us, respect our work

We are taking big steps forward in unity and it's time for CHC to respect us and our work. Over 85% of us have signed and delivered the petition urging COO David Flentge to keep the 2016 promise he made to CHC healthcare workers to bargain with us for our December wage increases. We make CHC profitable and have always put our patients and CHC needs before our own. Now it's time for Mr. Flentge to value us.

## Our unity is making a difference!

When we delivered the petition, Mr. Flentge had to respond to all of us when we told him to bargain with us. Instead of taking a high road and acknowledging us as a union he was disrespectful. We are the UNION, all of us are ready to support our bargaining team and keep our end of the bargain. Mr. Flentge are you? Will you keep your word?

"They say they value their employees, but my paycheck determined that was a lie. We went back down to call for wages that respect us."

**Ianya Rowland-Bayo, Pharmacy tech**

"When David said it's out of his hands to negotiate with us, I felt insulted. I was part of bargaining team in 2016 and know what David promised us in order for us not to have wages locked. It was best for CHC for its future not to have wages locked for three years, as the rest of the contract was. David did not keep his word. Its time for CHC to respect us."

**Christy Fox, Outreach worker, Eastside**

**Respect us,  
Respect our work**
