# Vote YES on Our Bargaining Priorities!

Our voice as healthcare workers is critical to the success of our hospital and now, as we start bargaining our contract, we can use it to guarantee that our patients and families have what they need. We've filled out our bargaining surveys over the past weeks and the next step is to vote on our bargaining priorities that the surveys reflected.

Come down over a break or before or after shift to join with all of our co-workers in uniting behind our bargaining priorities for a strong contract!

"The proposal votes are for us to vote on our priorities together. If you don't vote, the bargaining team won't know what the priorities are for you and your department. Vote and let your voice be heard."

**Lena Martin, RN,**  
Emergency Department

"With upcoming bargaining it is an absolute must that we make our voices heard. We need to come together to let management know what is most important to us. The priorities come from the surveys we all did to come up with our vision for the future that we have to stand behind with our bargaining team. Now it is time to stand together."

**Melissa Hawkins, MA, Covington**
