Vote YES on Our Bargaining Priorities!

Our voice as healthcare workers is critical to the success of our hospital and the wellbeing of our patients. We start bargaining very soon and now, we are coming together to make sure our patients and families have what they need. We completed bargaining surveys in the past weeks and the next step is voting on our bargaining priorities that the surveys reflected.

Come by on a break or before or after shift to join with all of us in uniting behind our bargaining priorities for a strong contract!

"Unity and power starts with coming to the vote. We have strength in numbers and need the support from all of us to show management that we are serious and committed to improving care for our patients and quality of life for our families. Come vote!"

Kelly Patton, RN ACU

"We made a definite impact with so many of us returning the survey. Your word will be heard, and the next step is to come vote on our priorities!"
