Making Our Voice Heard at Navos

Our union gives us a voice here at Navos. By uniting together we have been able to address safety, staffing and improve wages and working conditions at Navos. But we know there is still much more work to be done, as Navos transitions to MultiCare it is important that we remain a united strong voice. Come to a union meeting on Tuesday, April 24 to pick up a copy of your contract, learn more about what your union has been up to and share any concerns you have with your delegates.
