

# Progress, but Not Enough— Time to Keep Up the Pressure

We're making progress at the bargaining table on issues that matter to us and our patients. Our actions are working, but we need to keep up the pressure on management. Our unity is our power. We deserve a good contract that improves quality patient care, supports us and our families, and makes Island Hospital the best place to work and receive care.

"Management is making some movement but not a whole lot of movement. We still need to keep up the pressure on them to show them that we all need wage increases, better medical

benefits, and respect. Take a picture so we can uplift Island Hospital to the standards that we know we can give to our patients."

"Guys, we are doing most excellent. But, we need everyone's involvement to get big changes in our contract. Come out to Shipwreck Days and let's get our community behind us on this important fight!"

**Kim Deans, Acute Care**
