United for Quality Care

Island Hospital

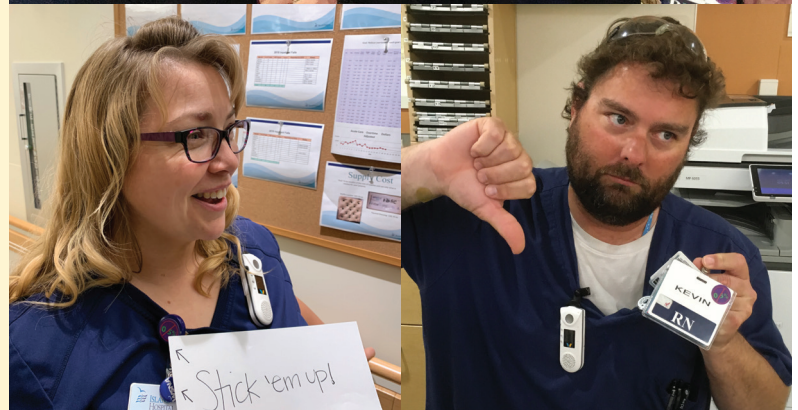

October 10, 2019

Our Healthcare Team Supports Us: They Know **0.5%** Is Not Enough

We showed our unity and wore stickers to show management that we deserve more than 0.5% per year. We need respectful wages and fair market adjustments to recruit and retain caregivers in order to uphold Island Hospital's good reputation as a place to provide and receive excellent care.

We are united: 1199NW members, doctors and nurses — everyone on the healthcare team — knows that good jobs and fair wages are necessary to retain experienced staff and provide quality care at Island Hospital. We all know that Island Hospital can do better. Now it's time for management to show it.

"Often times my co-workers ask me, 'what can I do?' As our 24-hour sticker action proved on Monday, dozens of people doing the same action together is a big deal. We showed management that everyone who works together at the hospital is united."

Kim Deans, Acute Care
