

# Standing Together for Our Future at Navos

We have come together as union members at Navos, ready to bargain a contract that recruits and retains staff and respects our voice! We have filled out our surveys and are ready to make our voices heard. Now is the time to stand up and make sure Navos respects our work and our benefits. Come to a vote meeting to have your say on our bargaining priorities.

"We are strongest when we are unified. The only way we can be unified is if we all make our voices heard about our priorities! We won big in our last contract and we are ready to do even better in 2020. But the only way to win is for everyone to get

involved. Come to a vote meeting to make your voice heard."
