

## We Voted YES for Our Key Bargaining Values and Priorities!

We overwhelmingly voted yes to stand together and stand behind the values that we will be bringing to the bargaining table. Because we are maintaining our unity and growing our strength by bringing new membership into our union from UFCW 21, we won protections that continue to keep us safe and secured our jobs through COVID — the most difficult year of our careers. We are bringing the same unity into bargaining to make CBH the best place to work in healthcare.

**“We are excited to collectively uniting as one big team this year with our social service department! I know this will make us all stronger. We all stick together in the fight, so even if you did not vote, we are all in the fight, we are in this together and look for the next actions that we can take together as a collective. The bargaining team is ready with our union’s support voting yes!” -Fekadu Gebremichael, CNA**

**“It is imperative that we stick together and stand up for one another through COVID — we learned that firsthand! Whether you are in the dietary, CNA, Admission, Nurse, Housekeeping or Social Services department, all we got is each other. Last year truly showed us that we can rely on each other to be safe and raise issues that got us out of risk.” -Vijay Prasad, Dietary**

### Building the best place to work in healthcare

- Wage increases that recruit and retain
- Affordable healthcare premiums for individuals and families
- Building racial equity language into our contract
- Bonus payment for all employees
- Covid-19 safety and recovery
- Safe staffing for excellent patient care

**BE READY TO  
TAKE ACTION!**

**Our unity is our power to move CBH administration and win on our priorities. Talk to your prospective bargaining team members or delegate about our next steps.**

**Our bargaining starts on May 27<sup>th</sup> from 9 am to 4:30 pm.**
