

# Coming Together Around Our Shared Priorities

## Bargaining Proposal Votes: December 7<sup>th</sup> and 8<sup>th</sup>

Providing quality patient care is what we show up for at OMC, and we need OMC to show up for us! That's why we're voting **December 7<sup>th</sup> and 8<sup>th</sup>** on our contract proposals and bargaining priorities that our elected bargaining team members will be taking to the negotiating table with administration!

Our bargaining and contract action teams have been hard at work preparing proposals that call for increased wages, retention bonuses, improvements to working conditions and staffing, better funding for continued education and much more. It's important that we all have a say in our bargaining priorities and authorize the proposals that we'll be fighting for. Voting for our bargaining proposals and priorities is how we show support for our bargaining team and make sure our proposals reflect what we need to win on our most important issues — it shows that we're united in approving our plan to win!

*Please join in on any of our upcoming vote meetings and cast your vote!  
You'll need at least 10 minutes to attend this vote.*
