

Environmental Service Workers Keep our Hospitals and Clinics Running! Celebrating EVS Week

As EVS workers, we know that the work we do is vital - we ensure patient safety by keeping our facilities clean and infection-free. That's why we continue to advocate for ourselves, from the bargaining table to the legislature in Olympia. This past legislative session, we won a worker safety bill that will support our health by protecting us from ergonomic injuries.

At Lincoln Hospital, EVS workers have also won:

- ★ Increased Evening, Night, and Weekend differentials
- ★ Parity with nurses in all differentials
- ★ 10% wage increases in 2023
- ★ 4% increases in 2024

This week is meaningful because we know that we are highly skilled and valuable to our workplaces. We deserve to be treated accordingly!

“You have remained resilient in your efforts to protect those around you and have continuously harnessed your unity to win exceptional standards and racial justice in all of your workplaces, both at the bargaining table and in your units and departments. Our entire union is joining me in celebrating Environmental Services Week by acknowledging each and every one of you, EVS professionals, for your hard work, commitment, and leadership.” - **Jane Hopkins, President, SEIU Healthcare 1199NW**
