

EVERGREENHEALTH WORKERS DESERVE THE SAME OPPORTUNITIES

Our priorities in bargaining have been clear from the beginning—this isn't a wage reopener! The contract needs more improvements than just the money. We proposed joining the SEIU Healthcare 1199NW Multi-Employer Training Fund, but management refused.

Despite the majority of area hospitals being members of the Training Fund—including Valley Medical Center, UW Northwest Hospital, Swedish Medical Center, and VMFH Virginia Mason Medical Center—EvergreenHealth doesn't see the value in ensuring that we can receive an education without the burden of having to take on considerable debt.

We stayed late at the bargaining table on our last session, ready and willing to continue bargaining until we got a contract that addresses our priorities, but management decided to walk away instead. Our unity has moved management considerably on wages, but we must stay strong and ready to take action to finish the rest. They can't bribe away our other key priorities.

"The Training Fund is a partnership between the union and Evergreen to support professional development of their employees. This collaboration is what the Magnet Recognition is all about. This brings up frustration when management won't bargain with us about the SEIU Multi-Employer Training Fund."—**Natana Denmark, Bargaining Team Member, Delegate**

"Our strength comes from our members. We are asking for your support and commitment as we work to expand education opportunities through the SEIU Multi-Employer Training Fund and secure a stronger future for all of us as members. Let's stay united and hold management accountable to their commitment to listen to us."—**Melissa Russel, Executive Board Member, Delegate, Bargaining Team Member**

BARGAINING TEAM

Melissa Russel	Ortho, Spine and Neurology
Danielle Bergeron	Answering Services
Sile Grace Matsui	In-Home, Mental Health
