

MULTI DON'T CARE AND WE'LL KEEP HOLDING THEM ACCOUNTABLE

Our bargaining team members and coworkers joined the Yakima City Council meeting to discuss the impact MultiCare's lack of good faith bargaining has had on our community. While MultiCare is taking months to negotiate with us they've also failed to reach an agreement with Molina and Regence insurance providers and additionally they've narrowly avoided another failure with Premera on Monday to extend their contract until the end of June.

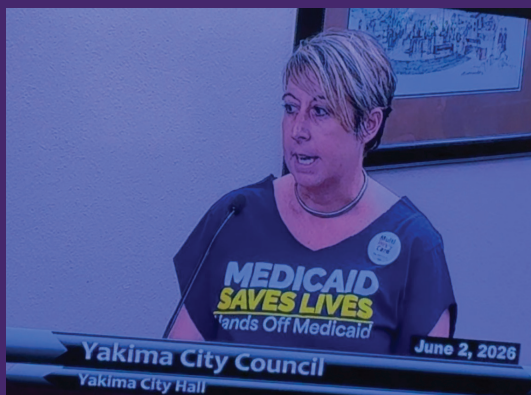

"Expanding services is important, but access to care means little if patients can't use their insurance at MultiCare facilities. Many families in Yakima are worried about whether their health coverage will be accepted, and that uncertainty can lead them to seek care elsewhere.

If patients cannot access care because of insurance network issues, it creates a ripple effect that impacts patient volumes, growth opportunities, recruitment efforts, and the long-term success of the health system's investments in our community.

At the same time, our negotiations with MultiCare have now stretched on for seven months and while we've continued providing care throughout this process we deserve meaningful progress at the bargaining table. Investing in staff through fair contracts is just as important as investing in buildings, new clinics, and expanded services.

A strong healthcare system requires both accessible care for patients and a commitment to the employees who make that care possible every day." - **Deshawn Oursland, Phlebotomist**

"Healthcare workers aren't the only ones paying the price for MultiCare's greed. All of our communities are paying the price, and we need to stand together – both healthcare workers and patients – to stop MultiCare from continuing to squeeze as much money as they can out of us." - **Jane Hopkins, RN, President of SEIU Healthcare 1199NW**

SHARING OUR STORIES

Multi-Don't-Care is NOT interested in considering improving workplace safety protections at Memorial regarding the increasing frequency of workplace violence and traumatic encounters, and seeks to remove your ability to file a grievance if you experience racism, discrimination or harassment. These are basic human rights, not things we should have to fight so hard for.

MULTICARE EXPOSED!

We're calling on each other and our community to share our stories about how we've been impacted by MultiCare's lack of healthcare coverage, fraudulent billing, collections practices or our own inability to afford their high premiums right here at Memorial.

If you or a community member have experienced a situation with MultiCare administration, billing practices, or corporate, we want your stories! Share this link with anyone who may have an experience to contribute.
