

✦ Bargaining Has Begun: We're United to Win! ✦

We held our first bargaining session on June 30 with management to let them know our priorities and we presented proposals that will strengthen our voice at work!

"We don't stand apart by job title. We stand together because every caregiver and support staff deserves fair pay, meaningful time off, and a contract that values the people who make equitable healthcare possible." **Jeremy Ramirez, Plant Operations**

"While I wish we had more time to present our proposals on the first day, we're prepared to keep fighting for a contract every one of our hard-working members deserve. Solidarity makes us stronger!" **Robin Stone, Visitor Navigator**

"We came to the bargaining table united, prepared, and committed to reaching an agreement that values the people who make our workplace successful." **Felicia Hill, CNA/HUC**

"We as a team are a unified front for all our 1199NW members at EHM. We all deserve to be recognized for our commitment, service and dedication to our patients through a fair and reasonable contract. We are committed to achieving this goal." **Nancy Anderson, RN**

"Solidarity is caring for one another the same way we care for our patients. When we stand together as union members, we create lasting change." **Dustyn Jossy, RN**

"Together, as one, we advocate for the well-being and success of every employee." **Shady Bies-Johnson, HUC**
