

Know Your Rights: We're Holding Compassus Accountable

When our leaders testified for the Washington State Investment Board on June 18, we made public the fact that Compassus workers at Sound and Snohomish have filed 64 Workplace Rights Complaints and 12 complaints with regulatory agencies including: the federal Health and Human Services Office of the Inspector General, Washington State Department of Healthcare Enforcement and Management System, WA State Attorney General's Medicaid Fraud and Abuse Division.

As a healthcare worker, you have the protected legal right to report unlawful practices at work and to file Worker Rights Complaints. If you believe you are experiencing any form of retaliation for filing a complaint, report it immediately to a bargaining team member and Washington State Department of Labor & Industries.
